DEPARTMENT OF ENERGY AND ENVIRONMENT

NOTICE OF FINAL RULEMAKING**Stormwater Management and Soil Erosion and Sediment Control Amendments**

The Director of the Department of Energy and Environment (DOEE), under the authority set forth in the District Department of the Environment Establishment Act of 2005, effective February 15, 2006 (D.C. Law 16-51; D.C. Official Code §§ 8-151.01 *et seq.* (2013 Repl. & 2019 Supp.)); Water Pollution Control Act of 1984, effective March 16, 1985 (D.C. Law 5-188; D.C. Official Code §§ 8-103.01 *et seq.* (2013 Repl. & 2019 Supp.)); and Mayor's Order 2006-61, dated June 14, 2006, hereby gives notice of the adoption of the following amendments to Chapter 5 (Water Quality and Pollution) of Title 21 (Water and Sanitation) of the District of Columbia Municipal Regulations (DCMR).

DOEE's adoption of the final rule comes after publication of a proposed rule in the February 15, 2019, issue of the *D.C. Register* (at 66 DCR 2142). DOEE has closely reviewed all of the comments that were received on the proposed rule during the forty-five (45)-day public comment period and is finalizing the amendments.

The 2013 Stormwater Rule is achieving its intended objectives, setting the District on a long-term path to reducing stormwater runoff so District streams and rivers can once again become fishable and swimmable without inhibiting the development that provides valuable benefits to the District. Approximately 825 projects have been successfully designed in compliance with the regulations, designing runoff-reducing green infrastructure that will capture stormwater from approximately 850 acres of the District, while the annual average number of development projects increased by approximately twenty percent (20%).

Though the regulations have generally achieved DOEE's intent, compliance has been a disproportionate burden for certain types of projects. DOEE's primary regulatory focus in developing the 2013 Stormwater Rule was on development, meaning relatively large new and renovated buildings and parking lots. For these projects, the cost to design and install runoff-reducing green infrastructure is small relative to the total project cost. However, for projects with a relatively low total project cost, the cost to achieve stormwater compliance can be relatively high. This includes single- and two-family affordable houses, projects to install or maintain athletic playing fields, trails for walking and biking, small structures such as picnic shelters at parks, and landscaping maintenance. DOEE also recognizes that these projects provide a public benefit and does not want to create disincentives to completing them. The proposed rulemaking provides compliance flexibility and exemptions to these projects for which compliance with the 2013 Stormwater Rule is a disproportionate burden.

To address the disproportionate burden of compliance, DOEE will finalize definition changes and exemptions to address single- and two-family affordable housing, athletic playing fields, permeable athletic tracks, permeable play areas trails, small structures at parks, and landscaping maintenance. Based on prior projects, DOEE estimates that the amendments may reduce the regulated area draining to best management practices (BMPs) on future Stormwater Management

Plans (SWMPs) by five percent (5%), with the largest portion of the reduction (approximately four percent (4%)) coming from the exemption for athletic playing fields, permeable athletic tracks, and permeable play areas. DOEE notes that for athletic playing fields, permeable athletic tracks, and permeable play areas, these surfaces must be either turf grass or permeable surfaces that are similar in design to permeable pavement. DOEE also expects that the Practicable approach described below will limit the possible reduction in area managed for future SWMPs submitted for single- and two-family affordable housing, trails, and small structures at parks.

DOEE is also finalizing changes to provide additional compliance flexibility and to maximize the water quality outcomes achieved by the Stormwater Retention Credit (SRC) program. In modifying the rules of the SRC program, a guiding principle for DOEE has been to increase the flexibility and ease to comply off-site, improve water quality outcomes, and avoid changing the rules of the program for SRC generators who have already invested in green infrastructure (GI). The SRC market has evolved as a tool for compliance flexibility since DOEE first started exploring off-site compliance flexibility in 2010 and when DOEE first enacted off-site compliance flexibility in 2013. DOEE's considerations when first establishing the program were in part based on the need to establish an initial supply of SRCs in a first-of-its-kind market while simultaneously balancing compliance flexibility and incentives to restore water quality. Now that DOEE has established a functional SRC market with ample supply of SRCs for developers to purchase, DOEE believes it is appropriate to re-evaluate and refine the SRC market rules. This will help the District to achieve its water quality goals and comply with the Clean Water Act in a way that is cost-effective to its ratepayers and taxpayers.

In the five and a half years since DOEE started approving projects under the 2013 Stormwater Rule, DOEE has approved over 100 projects to satisfy at least a portion of their stormwater management performance requirement off-site. When these sites comply with their Off-Site Retention Volume (Offv) obligations, the greatest water quality benefit is achieved when they use SRCs from new, voluntarily-installed GI in the Municipal Separate Storm Sewer System (MS4). When MS4 sites purchase SRCs from Combined Sewer System (CSS) sites, this reduces the rate of GI installation in the MS4. When CSS sites purchase MS4 SRCs, this increases the rate of GI installation in the MS4. Despite the fact that there has been enough SRC supply to satisfy one hundred percent (100%) of SRC demand, DOEE has noted that sixty-nine percent (69%) of SRCs purchased over the last twelve (12) months were CSS SRCs. This is a primary component of DOEE's determination to amend the SRC program to require that sites in the MS4 must use SRCs from the MS4.

The total Offv approved by DOEE is approximately 680,000 gallons, of which approximately 365,000 are from sites located in the MS4 and 315,000 are from sites located in the CSS. Assuming constant rates of off-site compliance, if DOEE allows sites in the MS4 to purchase CSS SRCs, this has the potential to reduce the pace of GI construction in the MS4 by approximately 1.5 acres per year. Therefore, DOEE's regulatory amendment to require sites in the MS4 to use SRCs from the MS4 is aimed at preventing this potential loss. DOEE also expects that, assuming constant rates of off-site compliance, if sites in the CSS choose to purchase SRCs from new, voluntary GI in the MS4, this could increase the pace of GI construction in the MS4 by approximately 1.3 acres per year. Additionally, by allowing greater off-site compliance flexibility for projects in the CSS area draining to storage tunnels, DOEE has

the potential to increase the pace of GI installation in the MS4. For example, if fifty percent (50%) of these projects choose to comply entirely through the use of SRCs from new, voluntary GI in the MS4, this has the potential to increase the pace of GI installation in the MS4 by as much as 4.5 acres per year.

Below, DOEE is summarizing the comments that were received, DOEE's comment responses, and any differences between the proposed rule and the final rule. For convenience, DOEE is summarizing comments by topic and subtopic, rather than by commenter. If multiple similar comments were submitted, DOEE is summarizing these as a single comment. Each comment is followed by DOEE's response to that comment. After the response to each comment on a given topic, DOEE is also summarizing its determinations in response to the comments and noting changes between the proposed and final rules. For some comments, DOEE determined that additional amendments would be appropriate. DOEE will address those changes through a separate rulemaking.

The comments are organized by topic in the following order:

1. Definition Changes and Exemptions

The following comment summaries are grouped by subject matter as follows:

- a. Single- and Two-Family Affordable Houses
 - b. Athletic Playing Fields, Permeable Tracks, and Permeable Play Areas
 - c. Small Structures at Parks and Pedestrian Trails
 - d. Definition Changes
 - e. General Comments about Definition Changes and Exemptions
 - f. DOEE Determinations
-
- a. Comments: Single- and Two-Family Affordable Houses

- DOEE received comments regarding the potential applicability of this exemption to other types of projects. Some commenters requested that the affordable housing exemption be extended to multifamily housing, nonprofit projects, and single- and two-family houses that are not constructed as affordable houses. Other commenters expressed concern about this exemption. Some of these commenters requested that DOEE not extend the exemption to other types of projects.

DOEE Response: While it is environmentally beneficial for these single- and two-family house affordable housing projects to install GI, DOEE has observed that there is a disproportionate compliance burden for these sites due to site constraints, small project budgets, and the disproportionate impact on the low-income buyers of these properties of ongoing off-site compliance. It is important to clarify that the exemption proposed by DOEE still requires that single- and two-family affordable houses submit a SWMP if they are constructed as part of a project that triggers the 5,000 square foot threshold of the regulations. However, after maximizing all feasible on-site options for stormwater management, the exemption allows DOEE to approve the project without requiring off-site compliance to reduce the inequitable impact of ongoing off-site compliance.

For other types of projects (such as multi-family affordable housing, nonprofit properties, and single- and two-family houses that are not constructed as affordable housing), DOEE does not believe that the three factors of site constraints, small budgets, and inequitable impact of ongoing off-site compliance are all present. Therefore, DOEE is not extending this provision to these other types of projects.

- DOEE received various comments and requests for clarification about the implementation of the provisions for single- and two-family affordable houses, including:
 - How would DOEE ensure the exemption is only awarded when appropriate?
 - How does this affect rented properties?
 - How does this work if some properties are affordable and some are not?
 - How will DOEE review the eligibility of the site based on site conditions, usability, and practicability?
 - How will DOEE track/verify property sales?
 - Are projects in compliance at the time of plan approval, or is a compliance determination pending until the time of sale?
 - How is proof of income submitted?
 - If a developer receives the exemption and sells the property to someone with an income higher than eighty percent (80%) of AMI, who is responsible for off-site compliance?

DOEE Response: Below is further clarification of how DOEE intends to implement these provisions.

First, regarding applicability of the exemption, the exemption will be available only to single- and two-family houses that are constructed as affordable housing (for example Department of Housing and Community Development projects, Habitat for Humanity). The exemption is not something that should be sought (and would not be awarded by DOEE) unless the developer intends to sell the house below market value to a purchaser whose household income is less than eighty percent (80%) of AMI. Additionally, the exemption is only available for owner-occupied properties. Finally, the exemption is awarded for individual properties, rather than for the entire project. This means that if some of the lots are constructed as affordable housing, those properties could receive the exemption but other properties constructed as part of the same project that are not constructed as affordable housing would not receive the exemption.

Second, regarding review of the exemption, DOEE's intention had been to review requests following the process described for Relief from Extraordinarily Difficult Site Conditions, as described in Appendix E of the Stormwater Management Guidebook (<http://doee.dc.gov/swguidebook>), which DOEE has been using since implementing the 2013 Stormwater Rule. However, DOEE will instead introduce a new appendix to the Stormwater Management Guidebook to describe a Practicable review process for single- and two-family affordable houses. Specifically for this exemption, DOEE will consider the minimum contributing drainage area (CDA) for stormwater best management practice (BMP) effectiveness and impact of BMPs on indoor and outdoor living space when reviewing relief requests.

Third, regarding tracking, DOEE intends to track these sites using the Submittal Database. For comparison, DOEE already uses the Submittal Database to track Offv obligations and to determine when to correspond with property owners regarding Offv compliance. DOEE will use a similar process to track and implement this exemption. DOEE's regulations already require that changes in ownership must be reported to DOEE. DOEE's submittal database is also integrated with the Office of Tax and Revenue Real Property database, which DOEE will use to confirm property sales and periodically check that proper notifications and purchaser income verifications have been provided through the submittal database. If these are not submitted, then DOEE will contact the property owner to request income verification, which will be provided to DOEE through the submittal database.

Fourth, regarding responsibility for Offv in the event that this is not achieved, DOEE will require the approved Stormwater Management Plan to state the full retention requirement for the site, including the retention being achieved on site and the off-site retention requirement that would apply for a purchaser whose income is above the 80% AMI threshold. Similarly, DOEE will require the Declaration of Covenants for the property, filed with the Recorder of Deeds, to state the requirements associated with this exemption, including a calculation of

the Off-Site Retention Volume that will be required for the owner if they do not meet the income requirements. DOEE will consider the project to be in compliance at the time of plan approval. Post-construction, if the income verification is not provided, DOEE intends to require off-site compliance. DOEE does not intend to verify income levels again until a subsequent purchaser acquires the property. Offv compliance would be the responsibility of the current owner, as stated in the recorded Declaration of Covenants.

- DOEE received comments requesting slight variations to the proposed exemption, including:
 - A comment stating that “below market value” may be an insufficient definition of affordable housing because there may be expensive houses that are sold below market value while still being unaffordable to someone with a low household income.
 - A comment requesting consideration of the DHCD inclusionary zoning price schedule.
 - A request that DOEE use the language “shall require” instead of “may require” when describing DOEE’s actions to require full compliance if the owner fails to provide proof that the household income is less than 80% of AMI.
 - A request for more nuance in the review process, without offering specific suggestions.

DOEE Response: The definition of affordable housing used in the proposed rule describes the house as being built for sale as affordable housing and requires the purchaser’s income to be less than 80% of AMI. This income threshold is commonly used for affordable housing projects in the District. DOEE believes the definition is sufficient to clarify the circumstances under which a property and its purchaser are eligible for this exemption from compliance with the Off-Site Retention Volume requirement for the property.

If the owner fails to provide income documentation, or does not otherwise meet the income requirements, DOEE has the authority to require full compliance. However, DOEE believes it is important to preserve DOEE’s ability to exercise discretion about how DOEE enforces the requirement for individual sites. Therefore, DOEE believes the term “may require” is appropriate.

Regarding nuance in the review process, DOEE believes that the process described in § 518 and § 526 is sufficient. This process will still require stormwater management when practicable, while allowing for a site-by-site analysis that will reduce the burden of compliance on single- and two-family affordable houses.

- DOEE received a request that single- and two-family homes that are not affordable homes should be able to comply fully off-site.

DOEE Response: The stormwater management regulations already allow for up to 50% off-site compliance for all projects, including single- and two-family houses. However, DOEE believes that the fifty percent (50%) on-site requirement is important in the MS4 and in the CSS areas managed with GI. DOEE is not currently considering changes to that requirement.

b. Comments: Athletic Playing Fields, Permeable Tracks, and Permeable Play Areas

- DOEE received comments expressing support for the exemption for athletic playing fields, with commenters stating that this will alleviate operational and financial concerns with providing athletic fields at schools. The commenter notes that athletic playing field projects have not been pursued as a result of the District's stormwater management regulations.

DOEE Response: DOEE acknowledges the commenter's support for this provision.

- DOEE received a comment that many athletic playing fields have met DOEE's requirements in the past and therefore future athletic playing field projects should as well.

DOEE response: DOEE disagrees with the commenter. While it is true that many athletic playing fields have complied with the District's stormwater management regulations in the past, DOEE has observed a disproportionate compliance burden for these projects. As a result, DOEE has determined that an exemption is appropriate for these types of projects in the future.

- DOEE received a comment stating that the exemption for athletic playing fields should not be provided when compacted cover is converted to artificial turf.

DOEE Response: DOEE disagrees with the commenter. Whether the pre-project conditions are compacted or impervious, the total project cost and site constraints associated with building an athletic field are similar. In addition, the detention requirements of the District's regulations remain in place for these projects, which will help prevent localized flooding and stream channel erosion.

- DOEE received a comment requesting that all athletic fields be exempt, not just those with an underdrain. The commenter requested clarification on the underdrain system requirements. DOEE also received a comment requesting guidance on measurement of permeability of an athletic playing field.

DOEE response: All permeable athletic fields will be exempt, including grass turf fields and synthetic fields with underdrains. DOEE believes that the presence of an underdrain is an important design consideration for synthetic fields. The Stormwater Management Guidebook will be updated to include guidance for

drainage layer and orifice sizing. Synthetic turf fields that allow for water to enter a drainage layer will be considered permeable.

c. Comments: Small Structures at Parks and Pedestrian Trails

- DOEE received comments requesting clarification about the process to obtain the exemptions for small structures in parks and for trails, described in §§ 517.8 and 517.10.

DOEE Response: DOEE's intention was that an applicant would seek the exemption as part of their application for DOEE review of a soil erosion and sediment control plan. DOEE understands that commenters wanted additional clarity on this process. DOEE will instead require that these projects submit SWMPs and will review projects according to the Practicable process described in these regulations and, in greater detail, a new appendix to the Stormwater Management Guidebook.

- DOEE received a comment stating that the exemption for small structures at parks would specifically benefit the District government.

DOEE Response: This exemption will be provided to all qualifying projects, whether or not the public park is District-owned. DOEE has observed compliance challenges for small structures at parks and believes this provision is warranted. This compliance flexibility will help to allow projects to proceed to provide community benefits without stormwater management compliance becoming cost-prohibitive.

d. Comments: Definition Changes

- DOEE received several comments expressing support for the change to the definitions.

DOEE Response: DOEE acknowledges the commenters' support for this change.

- DOEE received comments expressing concern that the definition changes will allow significant impervious area to be unregulated. Commenters requested a lower impervious threshold (such as 500-800 square feet).

DOEE Response: DOEE carefully evaluated these revised definitions and believes 2,500 square feet of impervious surface is an appropriate threshold. DOEE's intention with this definition change is that projects that consist primarily of landscaping maintenance would not trigger the stormwater management performance requirements. In revising this definition, DOEE needed to consider several factors, such as:

- Project size and impervious surface size at which DOEE could objectively determine that a project consists primarily of landscaping maintenance;

- Likelihood of post-project compacted land cover to increase stormwater runoff relative to pre-project land cover; and
- Total reduction in area that would be regulated on future submittals.

Under the revised definitions, if any of the pre-project land cover is natural, the regulatory threshold remains the same as it was under the 2013 regulations. If the pre-project land cover is impervious or compacted, the project is regulated if at least 2,500 square feet of the post-project land cover is impervious. A project with less than 2,500 square feet impervious surface post-project that still reaches 5,000 square feet of land disturbance and substantial improvement has at least half of its land disturbance associated with either impervious surface removal or maintenance of compacted surfaces such as landscaping. If these projects did not remove the impervious surface or did not disturb the existing compacted land cover (*e.g.*, to provide for landscaping maintenance), then they would not trigger the stormwater management regulations. DOEE notes that areas of land disturbance and substantial improvement may involve smaller total areas, but larger impervious surfaces, and not trigger the regulations. For example, construction of a new structure that is entirely impervious would not trigger the regulations if the land disturbance and substantial improvement is only 4,000 square feet.

Removal of impervious surfaces and maintenance of landscaping improve water quality by improving the permeability and retention capacity of land. DOEE acknowledges that there is water quality benefit that could be achieved by applying the stormwater management requirements to scenarios that would not trigger regulation under these new definitions. These include the conversion of compacted land cover to impervious land cover and disturbance of small areas of pre-project impervious or compacted land cover that remains the same type of land cover post-project. However, DOEE also believes the overall water quality benefits associated with regulating these projects is small.

To evaluate the water quality impact, DOEE analyzed how the 2,500 threshold would affect total area regulated and total retention volume achieved. Of the 822 projects that DOEE has approved under the 2013 Stormwater Rule, only 14 (1.7%) of these projects have had less than 2,500 square feet of impervious surface. These sites account for approximately 0.6% of total regulated area, less than a tenth of a percent of total regulated impervious area, and 0.1% of required stormwater retention volume. Given the relatively small area, impervious area, and required retention volume, the water quality impact achieved by regulating these sites has been comparably small.

Therefore, while there is water quality benefit associated with capturing stormwater runoff from compacted land cover, DOEE has determined it is appropriate to limit the extent to which compacted land cover contributes toward a project triggering the stormwater management performance obligations. DOEE evaluated several options and determined that the clearest and most objective way

to set this threshold would be to allow compacted land cover to account for at most fifty percent (50%) of the 5,000 square feet required to trigger the regulations. Once the regulations are triggered, DOEE believes it is appropriate to require that the entire area of land disturbance and substantial improvement comply with the stormwater management requirements.

In the table below, DOEE is summarizing how the regulatory change would affect different types of projects:

Example Project	Project Area	Regulated for stormwater management under 2013 Stormwater Rule?	Regulated for stormwater management under 2019 Amendment?
Apartment building re-sodding lawn	<ul style="list-style-type: none"> • 4,000 square feet of land disturbance • Entirely compacted pre- and post-project 	No	No
Apartment building re-sodding lawn	<ul style="list-style-type: none"> • 5,000 square feet of land disturbance • Entirely compacted pre- and post-project 	Yes	No
Construction of single-family home	<ul style="list-style-type: none"> • 2,000 square feet of land disturbance 	No	No
Construction of single-family home and additional landscaping	<ul style="list-style-type: none"> • 5,000 square feet of land disturbance • 2,000 square feet of impervious surface post-project 	Yes	No
Construction of single-family home on existing natural land cover	<ul style="list-style-type: none"> • 5,000 square feet of land disturbance • Entirely natural 	Yes	Yes

	land cover pre-project • 2,000 square feet of impervious surface post-project		
Construction of single-family home and additional landscaping	• 5,000 square feet of land disturbance • 3,000 square feet of impervious surface post-project	Yes	Yes
Construction of new building	• 4,000 square feet of land disturbance • Entirely impervious surface post-project	No	No
Construction of new building	• 6,000 square feet of land disturbance • Entirely impervious surface post-project	Yes	Yes

Based on these considerations and following DOEE’s analysis of the water quality impact associated with regulated projects with less than 2,500 square feet of post project impervious surface, DOEE determined that creating the 2,500 square foot impervious surface threshold would be an effective way to address landscaping maintenance while minimizing the impact on the District’s waterbody restoration efforts.

e. Comments: General Comments about Definition Changes and Exemptions

- DOEE received a general comment expressing support for compliance flexibility.

DOEE Response: DOEE acknowledges the commenter’s support for this provision.

- DOEE received comments stating that if DOEE creates an exemption, the exemption should be limited and that it is preferable for these projects to take all practicable

steps to manage stormwater runoff (*e.g.*, as required for affordable housing under DOEE's proposal). DOEE received comments expressing particular concern about the requirements for athletic playing fields.

DOEE Response: DOEE's intention is that the exemptions for trails and for small structures at parks would go through a process that requires implementing all practicable BMPs. DOEE understands the commenter's desire that each site install BMPs when feasible, and this was DOEE's intent in drafting the exemptions. To provide clarity, DOEE will change the exemptions for trails and for small structures at parks to be written in a way that is consistent with single- and two-family affordable housing and will define a Practicable process in the Stormwater Management Guidebook.

For athletic playing fields, permeable athletic tracks, and permeable play areas, BMP options are extremely limited. In many cases, sites have design constraints that prevent the conveyance of stormwater to other locations on the site for infiltration, which limits the practicability of BMPs other than evaluating the surface according to design guidelines for permeable pavement practices. While DOEE determined that a practicable process was not appropriate for these types of projects, DOEE does intend for these projects to detain stormwater runoff. To streamline and simplify the design process, DOEE is specifying a minimum depth of crushed stone and maximum orifice size that will meet the detention requirement for the two (2)-year storm. Generally, projects satisfy the detention requirement for the fifteen (15)-year storm when they do not result in more impervious surface post project than there was pre-project.

- DOEE received comments expressing concern that proposing exemptions and changing definitions are in conflict with the District's MS4 Permit. Commenters noted that the MS4 Permit requires the District to implement its stormwater management programs, to regulated development activity, and to research ways to increase the performance requirements or scope of the District's regulations.

DOEE Response: Proposing exemptions and changing definitions is not in conflict with the District's MS4 Permit. The MS4 Permit requires that the District continue to implement its stormwater management regulations for development activities such as construction and renovation of commercial, multifamily, and mixed used buildings and parking lots. However, the MS4 permit does not define development activity and does not require that the District regulate any specific project.

DOEE's focus in writing the 2013 Stormwater Rule was to regulated commercial, multifamily, and mixed use buildings and parking lots. In the preamble to the first proposed rulemaking on the 2013 Stormwater Rule, published in the August 10, 2012, issue of the *D.C. Register* (66 DCR 0031213), DOEE described its decision-making process to set regulatory thresholds and storm size requirements, including DOEE's consideration of the cost of compliance. This was supported by

an analysis DOEE commissioned in 2010 by Industrial Economics, Inc. The hypothetical projects used for analysis were new construction and renovation of large commercial buildings because this was the focus of DOEE's proposed regulations.

The focus of DOEE's regulations was not single- and two-family affordable houses, athletic playing fields, permeable athletic tracks, permeable play areas, trails, small structures at parks, or landscaping maintenance. However, these types of projects have triggered the 2013 Stormwater Rule when they disturb or substantially improve 5,000 square feet. As described in the introductory paragraphs of the preamble, DOEE recognizes the disproportionate burden of compliance on these types of projects and determined that amendments to the stormwater regulations were appropriate. Additional details on DOEE's determinations are available in the comment responses on these subjects earlier in this preamble.

DOEE provided the United States Environmental Protection Agency with a copy of the proposed amendments when they were published in the *D.C. Register*.

Although the exemptions and definition changes are not in conflict with the MS4 Permit, DOEE acknowledges that the permit does require that the District provide by December 2020 an analysis of potential changes to the District's stormwater management regulations. DOEE will prepare this analysis to comply with the MS4 Permit requirement. If DOEE's analysis suggests that DOEE should implement any changes to the regulations, DOEE may choose to adopt a different size threshold for regulated project or performance requirement.

- DOEE received comments stating that any lost retention capacity should be modeled and made up elsewhere. Some commenters requested that DOEE use its funding or increase performance standards to provide the corresponding retention.

DOEE Response: DOEE understands the commenter's desire to restore the District's waterbodies and DOEE shares that goal. However, DOEE's focus through the stormwater management regulations is on development activity. DOEE believes that its water quality goals can be achieved while providing reasonable exemptions to these regulations for projects that are disproportionately impacted by compliance.

DOEE evaluated the proposed exemptions, along with definition changes, and projected a decrease of up to five percent (5%) in regulated area draining to BMPs on future SWMPs. DOEE also proposed amendments to the SRC trading program to help shift a greater portion of retention into the MS4, which DOEE expects to help make up for some of the reduced contributing drainage area on future SWMPs. DOEE uses its funding through several grant and rebate programs and through the SRC Price Lock Program to incentivize and fund green infrastructure in the MS4.

f. DOEE Determination

DOEE will finalize the provisions regarding affordable housing, but will move the provision in § 517 to § 518 and will not refer to the provision as an exemption. DOEE will revise and expand its guidance on affordable housing in the Stormwater Management Guidebook.

DOEE will finalize the amendments to the definitions of Major Land-Disturbing Activity and Major Substantial Improvement Activity.

DOEE will finalize the amendments related to trails; small structures at parks; and athletic playing fields, permeable athletic tracks, and permeable play areas with the following clarifications in response to the comments received:

- For athletic playing fields, permeable athletic tracks, and permeable play areas, the project will only be exempt if the Soil Erosion and Sediment Control plan submitted for the project shows that the athletic field, permeable athletic track, or permeable play area meets drainage layer and orifice sizing requirements specified in DOEE's Stormwater Management Guidebook. If the sizing requirements are not met, then the project will be required to obtain DOEE's approval of a Stormwater Management Plan (SWMP). The SWMP would need to show that the peak discharge requirements of the regulations are met, but would not otherwise need to show that the stormwater management performance requirements are met.
- Rather than offering an exemption for trails and for small structures at parks, DOEE will require that these projects submit a SWMP and go through a Practicable review process. This provision is being moved from § 517 to § 518 and is being structured similar to the provision for single- and two-family affordable housing. This change is being made to provide clarity to applicants while achieving the same stormwater management outcome DOEE intended with the proposed exemption. Additionally, DOEE is clarifying that structures at parks are only eligible for consideration under this provision if they are less than 2,500 square feet.

2. Additional compliance flexibility with the on-site retention requirement for projects that drain to the combined sewer systemComments

- Nearly all of the submitted comments on this subject expressed support for the amendment. Some commenters stated that this provides additional design flexibility and potential cost savings to developers while incentivizing additional green infrastructure in the MS4 without affecting existing SRC supply, demand, and value. Other commenters noted that similar rules in other environmental markets have been

effective for balancing market supply and demand. Commenters also noted that with the completion of the CSS tunnel project, this off-site compliance flexibility should achieve far greater water quality benefit through the purchase of MS4 SRCs.

DOEE Response: DOEE acknowledges the commenters' support for the proposed amendment and appreciates the input on expected outcomes.

- DOEE received a comment that developers are unlikely to use the additional off-site compliance flexibility if they are still required to achieve the detention requirements on-site. The commenters suggested that the cost to install BMPs to detain stormwater is significant, but it can be achieved by on-site retention BMPs. Commenters indicated to DOEE that the combined cost of on-site detention and off-site retention would likely cause developers to instead build BMPs on-site that achieve both the retention and detention requirement simultaneously. In other words, compliance with the detention requirement would be a cost barrier to developers using the new flexibility to comply with the SWRV fully off-site in the MS4.

DOEE response: DOEE appreciates the commenters' input on the decision-making process to comply off-site. DOEE will address this subject via a separate rulemaking.

- DOEE received one comment suggesting that this change would discourage BMPs in areas where stormwater management is needed.

DOEE Response: While DOEE understands that there is benefit to installing GI in the CSS, the water quality benefit of installing GI in the MS4 is much larger. Thus, this proposed amendment has the potential to maximize water quality improvement.

- DOEE received one comment that DOEE should not decrease the on-site retention requirement in the areas of the CSS being served by tunnels as a method to drive demand for the SRC market, and should rather conduct research on other ways to drive demand for the SRC market. The commenter questions whether developers will use the additional off-site compliance flexibility.

DOEE Response: DOEE's goal with the proposed change was not to drive demand for SRCs per se, but rather to increase the amount of green infrastructure located in areas that drain to the MS4, where GI maximizes benefits for District rivers. The 50% on-site retention requirement limits the extent to which this goal can be achieved. The change that DOEE proposed allows flexibility for regulated sites in the tunnel area of the CSS to retain less than fifty percent (50%) on site, provided any SRCs they use are from GI in the MS4. This change can help drive the installation of GI in the MS4 as regulated demand for MS4 SRCs grows.

DOEE acknowledges the possibility that developers will not use the additional off-site compliance flexibility. DOEE agrees with the commenter that there may

be additional ways to encourage developers to comply off-site in the MS4 and DOEE is in the process of researching additional possible regulatory and incentive-based options to achieve this outcome. However, DOEE disagrees with the commenter's suggestion that this means the proposed flexibility should not be implemented.

DOEE Determination

DOEE will finalize the proposed amendments to §§ 520, 521, 522, and 527.9. The finalized amendment also includes two clarifications. First, any site that drains to the CSS will continue to have a fifty percent (50%) on-site retention minimum if that sewershed is scheduled to be separated (*i.e.*, becoming part of the MS4), as identified in capital improvement budgets (available at <https://www.dewater.com/budget-and-financial-planning>). Second, any site in the CSS that complies less than 50% on-site but is part of a larger phased project approved by DOEE under a masterplan may use SRCs generated by another phase of that project (which could include CSS SRCs from an adjacent parcel or from the adjacent public right of way [PROW]).

DOEE will address detention requirements in the CSS through a separate rulemaking.

3. Requirements to achieve off-site compliance outside the combined sewer system

Comments

- DOEE received many comments in support of this amendment, which would require projects in the MS4 to achieve their Offv in the MS4. Commenters stated that this change would help to achieve water quality improvements in the MS4.

DOEE Response: DOEE appreciates the commenter's support for these changes.

- Some commenters requested that DOEE shorten the three (3)-month transition period before this new provision takes effect.

DOEE Response: DOEE acknowledges that many SRC buyers and sellers negotiate transactions over a period of time. DOEE believes that a 3-month transition is sufficient to allow any ongoing negotiation to reach a contract. DOEE believes that restricting the purchase of CSS SRCs immediately is not a reasonable transition period for SRC buyers acting under the framework of the pre-amendment stormwater management regulations. For developers generating and using their own SRCs, DOEE believes that a 3-month transition is sufficient time for any project that has already been designed and is nearing the end of the permitting process to obtain DOEE's approval of the SWMP.

- Some commenters suggested that the requirement for MS4 sites to use MS4 SRCs should not be implemented:
 - Commenters said it was not clear that MS4 sites are using CSS SRCs, and that the rule may not be necessary.

- Commenters said this would inject uncertainty into the market, making it difficult for DOEE to implement the program and complicated for developers to know which SRCs they could use.
- Commenters said this would create different tranches of SRC supply and devalue CSS SRCs.
- DOEE also received comments requesting the ability for previously-approved sites with SRC eligibility in the CSS to be able to continue selling SRCs to the MS4, including for future years of SRC certification.

DOEE Response: The primary purposes of the SRC program are to provide compliance flexibility for regulated development while also maximizing benefits for District waterbodies. The greatest water quality benefit is achieved when voluntary GI is installed in the MS4, not in the CSS. Despite the fact that there has been enough SRC supply to satisfy one hundred percent (100%) of SRC demand, DOEE has noted that sixty-nine percent (69%) of SRCs purchased over the last twelve (12) months were CSS SRCs. This limits the extent to which the SRC program can accelerate restoration of the District's waterbodies.

When DOEE started developing the SRC program in 2010 and at the time DOEE finalized the 2013 Stormwater Rule, DOEE determined that allowing the use of CSS or MS4 SRCs was important for establishing a new market. Six years later, DOEE believes it is appropriate to revisit the rules of the SRC program to ensure that the maximum water quality benefits are achieved.

DOEE disagrees with the commenter's suggestion that this would increase the resources DOEE needs to implement the program and make it difficult for developers to comply. Implementation of the SRC program occurs using the Stormwater Database (<http://doee.dc.gov/swdb>), also referred to as the Submittal Database. In the Stormwater Database, DOEE knows the sewershed of each regulated site and the sewershed of each SRC-generating site. This information is posted to the list of SRCs for Sale, so property owners who are seeking to buy SRCs can easily filter for MS4 SRCs. DOEE consistently helps developers comply with Offv obligations through automated email reminders, phone calls, and instructions. DOEE plans to include in these frequent communications information about which SRCs a property is eligible to use.

DOEE acknowledges the commenter's observation that MS4 SRCs will be more valuable than CSS SRCs. DOEE's intention is to increase the incentives to construct GI in the MS4, so a higher valuation of MS4 SRCs supports this objective.

DOEE has several programs in place to support a large, affordable supply of MS4 SRCs. Chief among these is the SRC Price Lock Program, which has already resulted in the construction of SRC-generating projects that can provide approximately 225,000 MS4 SRCs per year.

In addition to maximizing water quality benefits for District waterbodies, a strong demand for SRCs in the MS4 is important for supporting robust SRC generation in the District and a long-term supply of SRCs to provide compliance flexibility to regulated development. Strong demand for SRCs in the MS4 signals to potential SRC generators that they should indeed construct these GI projects that provide SRC supply and offers greater certainty that their SRCs will be purchased. If developers are buying non-MS4 SRCs, this limits the ability of SRC generators to privately raise funds to construct their MS4-based projects. As a result, this would achieve less total supply on the market for developers to purchase in the long run.

In addition, while DOEE recognizes that the change will reduce the incentive to install GI in the CSS, this change must be considered in light of the environmental benefit achieved by requiring MS4 sites to purchase MS4 SRCs. It must also be noted that since the launch of the SRC program, there have been no voluntary GI projects built in the CSS with the intent to sell SRCs to pay for the GI. All CSS SRCs are from regulated projects exceeding their requirements, projects submitted for permitting before 2013, or DOEE-funded projects. Therefore, this change does not affect the market rules for voluntary GI projects that had expected to use SRCs to support the financing of the GI project. For sites generating CSS SRCs, the SRC owner may sell SRCs to MS4 sites in the future if they are sold according to a contract that has already been signed or that is signed within three (3) months of the finalization of these amendments.

DOEE Determination

DOEE will finalize the proposed amendments. The final rule clarifies that any Anacostia Waterfront Development Zone (AWDZ) site is required to use MS4 SRCs for its entire Offv. While the language of the proposed rulemaking only required this for the Water Quality Treatment Volume (WQTV) portion of the Offv, DOEE's intent was that MS4 SRCs must be used for the WQTV portion of the Offv and for the SWRV portion of the Offv.

4. SRC Eligibility Cutoff Date

Comments

- DOEE received comments that support the change in the SRC eligibility cutoff date. Many commenters expressed the belief that when older projects have the ability to generate SRCs, this depresses the incentive for construction of new GI.

DOEE Response: DOEE acknowledges the commenters' support for this change.

- Many commenters who supported this change requested that DOEE implement additional changes:

- DOEE received a comment that BMPs in the CSS that previously received SRC certification should eventually lose that eligibility.
- DOEE received a comment requesting that DOEE restrict the value of the SRCs from BMPs installed prior to 2013, or restrict how those SRCs can be used in the future.
- Commenters requested that DOEE implement the new rules immediately, rather than allowing for a six (6)-month transition.

DOEE Response: DOEE appreciates the commenters' desire to increase the incentives for the construction of new green infrastructure by further restricting the eligibility to generate SRCs from previously-built sites. For GI built prior to the launch of the SRC program in 2013, the investment to construct GI was not primarily driven by the ability to generate SRCs. Although the costs of GI design and construction occurred prior to the establishment of the SRC program, the owners of these GI practices were required to invest in additional engineering post-construction to document the retention capacity of the previously-built GI. DOEE believes it is reasonable to allow these sites to continue to generate SRCs. However, DOEE notes that this scenario is different from regulated sites that designed and built GI to satisfy a SWRv and have SRC eligibility for the excess of that required GI capacity.

DOEE also recognizes that for property owners who are interested in generating SRCs, it can take several months to complete the necessary engineering, schedule inspections, and develop a maintenance contract. Therefore, DOEE thinks a 6-month transition is sufficient.

- Commenters requested clarification on the recertification process, including how projects will be notified of the ability to recertify SRCs and whether the inspection process could delay recertification.

DOEE Response: DOEE currently reminds SRC generators with automatic email notifications about recertification six (6) months in advance, including a recommendation to schedule an inspection (since the inspection can occur 6 months prior to certification). DOEE also increases its assistance with the recertification process starting three (3) months in advance, since this is when DOEE can start receiving the next SRC certification application.

Given this assistance, DOEE believes it is unlikely that a DOEE inspection would delay recertification since the inspection can occur 6 months in advance and the recertification can occur with up to 6 months of lapse (*i.e.*, a one (1)-year time period). DOEE also notes that any participant in the SRC Price Lock Program has already committed to recertify SRCs with a lapse no greater than 6 months.

- DOEE received a comment requesting that the cutoff date be extended to five (5) years.

DOEE Response: DOEE believes three (3) years is ample time to submit the application to certify SRCs. Three years also coincides with DOEE's inspection cycle.

DOEE Determination

DOEE will finalize the proposed amendments. The three (3)-year time period to submit the first SRC certification application begins with DOEE's final inspection. The rule also states that if a final inspection does not occur, the 3-year period starts at the time of BMP or land cover installation. DOEE is clarifying that in the event that a final inspection does not occur, DOEE will determine when the BMP or land cover was installed.

5. Other Comments related to the SRC Program

Many commenters who expressed support of the changes DOEE proposed for the SRC Program also submitted comments requesting that DOEE make additional changes related to the SRC program.

Comments

- Several commenters requested changes to the retention performance requirements. In addition to increasing incentives to construct green infrastructure in the MS4, these changes were focused on addressing changing rainfall patterns. Specific comments included:
 - A request to increase the stormwater retention performance requirement for regulated sites to 1.7 inches of retention, with consideration for how climate change will affect future rainfall patterns.
 - An indexing of the 90th percentile storm event with periodic updates.
 - A comment that by raising the requirement to 1.7 inches of retention, DOEE could also make the AWDZ requirements redundant and remove those requirements.

DOEE Response: DOEE recognizes that an increase to the performance requirement would increase stormwater retention and would have the potential to increase the amount of SWRv achieved off-site in the MS4. However, any increase to the performance requirement would require further evaluation and is outside the scope of this rulemaking. DOEE notes that the District's MS4 Permit requires that the District prepare by December 2020 an evaluation on possible changes to the District's stormwater management regulations, which could include an evaluation of possible increases to the performance requirement.

Regarding the AWDZ requirements, these were established by the Anacostia Waterfront Environmental Standards Amendment Act of 2012. This legislation also requires that off-site compliance may only be used if on-site compliance is infeasible.

- Commenters requested various restrictions on the ability to generate or use CSS SRCs through:
 - Requirements that sites in the CSS use MS4 SRCs for at least part of their Offv (*e.g.*, any site in the CSS must meet half its Offv with MS4 SRCs even if it uses CSS SRCs for the remaining portion of its Offv);
 - Trading ratios (*e.g.*, a CSS site may use .8 MS4 SRCs to meet one gallon of Offv);
 - Restrictions on the ability to generate CSS SRCs; and
 - Requirements that sites in the CSS use MS4 SRCs.

DOEE Response: DOEE agrees with the commenters about the water quality benefit achieved by purchasing SRCs generated by GI in the MS4. DOEE's proposed amendments have already required that any site in the MS4 may only use MS4 SRCs and have provided additional off-site flexibility to projects in the CSS area that drains to storage tunnels if they choose to comply off-site in the MS4. DOEE is not at this time choosing to implement additional program rules that would specifically address the ability to generate or sell CSS SRCs. Any site in the CSS that complies at least fifty percent (50%) on-site would still be allowed to use CSS SRCs. DOEE may revisit this decision in a later rulemaking.

With regard to trading ratios and requirements to comply in the MS4 for a percentage of Offv, DOEE prefers to make an SRC purchase as easy as possible. DOEE believes that the implementation of trading ratios or requirements that a specific percentage of SRCs must be MS4 SRCs would make purchasing SRCs more difficult. With a trading ratio, SRC buyers would need to calculate the number of SRCs they would need to purchase based on the SRC seller with which they negotiate a trade. With an MS4 percentage requirement, the buyer would either need to purchase in multiple transactions or would need to purchase exclusively MS4 SRCs.

If a regulated site in the CSS is already complying 50% on-site and chooses to install additional on-site GI, the additional retention capacity would be built in the CSS. When the regulated site uses a CSS SRC, this is a comparable water quality outcome.

- DOEE received various comments regarding the use of SRCs that are generated in excess of regulatory requirements. Specific requests include:
 - Restrictions on the ability to sell these SRCs, but preserving the ability for an SRC generator to use the SRCs on another of that SRC generator's properties with Offv;
 - Restrictions on the ability to use these SRCs, including on the SRC generator's other properties with Offv;
 - Restrictions on the ability to generate SRCs in excess of a regulatory requirement on sites in the CSS;
 - Establishing a priority order in which SRCs may be used (*e.g.* must use voluntary SRCs before using regulated SRCs); and

- Requirement that sites could only use self-generated regulated SRCs for a portion of their Offv.

DOEE Response: DOEE appreciates the commenters' input and agrees that it is important to support the construction of new, voluntary green infrastructure in the MS4. DOEE believes it is appropriate to limit the use of SRCs that are generated in excess of a regulatory requirement since the GI capacity that produces these SRCs is used in only the few storms each year that have a rainfall depth larger than the regulatory requirement. DOEE will address this subject via a separate rulemaking.

- DOEE received a comment requesting information about the rate at which developers are using the off-site compliance flexibility.

DOEE response: Approximately thirteen percent (13%) of development projects have opted to comply off-site. DOEE includes a list of sites with Offv in the SRC Registry, which is available through the Submittal Database. This comment does not address a specific element of the proposed rulemaking, so there will be no change in response to this comment.

- DOEE received comments that DOEE should work with DDOT to allow more privately-funded green infrastructure in the PROW.

DOEE Response: DOEE concurs with the commenter and has been discussing with DDOT the circumstances and conditions under which DDOT would allow installation of SRC-generating projects in the PROW. The stormwater management regulations already allow SRC-generating projects in the PROW, so no regulatory change is necessary.

- DOEE received a comment that the proposed regulations should exempt voluntary retrofits.

DOEE Response: The regulations already have an exemption for voluntary stormwater management retrofits. No change is necessary.

- DOEE received several comments that DOEE should increase its outreach to developers to encourage off-site compliance. Commenters suggested various types of analysis that could be done to better understand developers' decision-making process with regard to off-site compliance.

DOEE Response: While DOEE appreciates the commenters' recommendations, this is outside the scope of the rulemaking. DOEE will continue to seek and respond to input from commenters regarding effective outreach strategies. DOEE is currently in the process of developing outreach materials related to the increased compliance flexibility in the CSS area.

- DOEE received a comment requesting a five (5)-year certification period instead of a three (3)-year certification period.

DOEE Response: A change to the maximum certification period is outside the scope of this rulemaking. DOEE believes the 3-year certification cycle is an appropriate limit on the ability to generate SRCs in the future. The certification cycle is consistent with DOEE's maintenance inspection cycle and reduces the risks of maintenance failure at an SRC-generating site.

- DOEE received comments requesting that SRC-generating projects should not need to submit a SWMP and should receive priority review.

DOEE Response: This comment is outside the scope of this rulemaking. DOEE believes it is critical that SRC-generating projects receive the same level of SWMP review that is required for all regulated sites, as the SRCs produced will be used to satisfy the regulatory obligations of these sites. DOEE also commits to review all projects within ten (10) to thirty (30) business days, prioritizing projects in the order they are submitted.

- DOEE received a comment requesting clarification on how DOEE tracks progress achieved through the SRC program.

DOEE Response: DOEE tracks the SRC program using the Submittal Database. Specific indicators of program success are published in annual reports at <http://doee.dc.gov/src>. These indicators include number of GI projects built, total area draining to SRC-generating GI, number of trades, number of projects complying off-site, and number of MS4 SRCs used.

- DOEE received a comment requesting additional resources to assist developers with calculating costs of off-site compliance, including opportunity cost.

DOEE Response: Development of such a tool is outside the scope of this rulemaking.

- DOEE received a comment suggesting that the SRC program was intended to help homeowners generate income by installing BMPs. The commenter requested clarification on whether this is the case.

DOEE Response: DOEE has not promoted the SRC program as a good option for homeowners. While it is possible for homeowners to meet the SRC eligibility criteria, DOEE anticipates that most individual homes don't have large enough volumes of stormwater runoff to competitively generate and sell SRCs. Therefore, DOEE has always made a point to discuss these issues with homeowners who are interested in the program. DOEE typically directs these homeowners to the RiverSmart Homes program, which is focused on residential properties.

DOEE Determination

The final rule does not directly address the additional comments received regarding the SRC Program. However, through a separate rulemaking, DOEE plans to propose amendments that address the ability to use SRCs generated in excess of a regulatory requirement. Additionally, DOEE will continue working on SRC generation for projects in the PROW and continue to conduct outreach on off-site compliance and the SRC program.

6. Fees

Comments

- DOEE received comments contending that its supplemental review fees are too high and that DOEE's review fees are too high for single-family projects.

DOEE Response: These comments, which focus on the fee structure, are outside the scope of the proposed rulemaking, which includes an inflation adjustment to the supplemental fees but does not change the overall fee structure. The fee structure, including the supplemental fee, is essential for DOEE to be able to provide timely review on permit applications. These fees pay for DOEE's plan review, and a reduction in fee revenue would result in a decreased ability to review projects promptly.

DOEE also notes that most single-family homes do not trigger the stormwater management regulations, unless they are large enough to trigger the regulations by themselves or as part of a larger project such as a subdivision. DOEE notes that for Soil Erosion and Sediment Control, there is a lower tier of fees for residential projects that disturb less than five hundred (500) square feet. DOEE acknowledges that for projects that comply entirely off-site or that go through a Practicable review process, the time required for DOEE review is reduced. DOEE will address this subject through a separate rulemaking.

- DOEE received comments requesting clarification about when supplemental review fees are charged.

DOEE Response: Supplemental review fees are charged for each submission after the first resubmission (in other words, the fee is charged for each review starting with the third review). A new flowchart in Chapter 5 of the Stormwater Management Guidebook was created to help clarify this process.

DOEE Determination

DOEE will finalize the inflation adjustment and other changes to § 501. Through a separate rulemaking, DOEE will also address fee rates for projects that require less time for DOEE to review.

DOEE's proposal included the incorrect fee inflation adjustment in Table 3 for dewatering pollution reduction plan review and for review of an application for relief from extraordinarily difficult site conditions. DOEE is implementing the final rule with the correct fee inflation adjustment.

7. Other Comments

DOEE received various comments that did not address the rulemaking.

Comments

- DOEE received a comment requesting an increase to the Stormwater Fee and an increased discount for those who manage stormwater in the MS4. The commenter also requested increased funding for the SRC Price Lock Program.

DOEE Response: The stormwater fee is outside the scope of this rulemaking. However, DOEE notes that the District's MS4 Permit requires that the District prepare by December 2020 an evaluation on possible increases to the stormwater fee. The SRC Price Lock Program is also outside the scope of this rulemaking. While DOEE agrees with the commenter regarding the importance of the SRC Price Lock Program, increased funding for the SRC Price Lock Program would need to be allocated through the District's budget process.

- DOEE received a comment requesting information about the budget of the Clean Rivers Impervious Area Charge (CRIAC) Nonprofit Relief Program.

DOEE Response: The CRIAC Nonprofit Relief Program is outside the scope of this rulemaking. Information about the CRIAC Nonprofit Relief Program is available at <https://doee.dc.gov/service/clean-rivers-impervious-area-charge-nonprofit-relief-program>.

- DOEE received a comment stating that grey infrastructure should be used to provide stormwater treatment when stormwater retention is not an option.

DOEE Response: DOEE's stormwater management regulations already require stormwater treatment in each Site Drainage Area outside the CSS that does not achieve fifty percent (50%) of the SWRV.

- DOEE received a comment expressing concern that previously-approved projects would retroactively trigger SWPPP requirements.

DOEE Response: The proposed amendments clarified that projects that disturb 5,000 square feet require a SWPPP. The 2013 Stormwater Rule stated that projects only require a SWPPP if they disturb more than 5,000 square feet. This

was a minor clarification. There are no previously-approved projects that disturbed exactly 5,000 square feet.

- DOEE received a comment recommending adaptive controls for stormwater BMPs.

DOEE Response: While DOEE does not endorse any particular product, these products may be used if they meet DOEE's design requirements.

- DOEE received a comment requesting information about how the cost threshold for an erosion and sediment control exemption in § 541 was set.

DOEE Response: This value was determined using an inflation adjustment to the value included in the 2013 Stormwater Rule.

- DOEE received a comment expressing concern about Certificates of Occupancy for swing space trailers prior to BMP implementation. The commenter stated that swing space trailers may be left in place for a long period of time. DOEE also received an inquiry about whether this applies to private schools and universities.

DOEE Response: DOEE believes it is appropriate to allow the use of swing space to be used during construction without requiring the installation of the BMP until project completion. This also applies to private schools and universities.

While DOEE's summary of the proposed rulemaking mentioned flexibility to obtain a Certificate of Occupancy to use swing space trailers prior to building green infrastructure, DOEE's proposed rulemaking did not actually include this provision. The discrepancy was inadvertent. DOEE does not intend to include this provision in the regulations, and will instead address it in the Stormwater Management Guidebook.

- DOEE received comments requesting additional training and resources. A particular comment requested a larger map of CSS and MS4 areas.

DOEE Response: This comment does not address a specific element of the rulemaking. DOEE provides many training opportunities and resources. The comment did not offer specific recommendations for how DOEE could improve these resources. The requested map was published on the DOEE website with explanation of the proposed rulemaking. The map allows for the user to search by address and zoom to specific locations. The requested map will also be available via the Submittal Database.

DOEE Determination

DOEE will implement no changes in response to these comments. DOEE will include the swing space provision as guidance in the Stormwater Management Guidebook and not as a regulatory provision in the rulemaking.

Section 517, STORMWATER MANAGEMENT: EXEMPTIONS, is amended as follows:**Subsection 517.2 is amended to read as follows:**

- 517.2 A land-disturbing or substantial improvement activity shall be exempt from the requirements of §§ 520 (Stormwater Management: Performance Requirements For Major Land-Disturbing Activity), 522 (Stormwater Management: Performance Requirements For Major Substantial Improvement Activity), and 529 (Stormwater Management: Covenants and Easements) if the Department determines that the activity is conducted solely to install a best management practice or land cover that retains stormwater for one or more of the following purposes:
- (a) To generate SRCs;
 - (b) To earn a stormwater fee discount under the provisions of this chapter;
 - (c) To voluntarily reduce stormwater runoff in a manner that would be eligible to either generate SRCs or a stormwater fee discount, even if the person conducting the activity does not intend to apply to either program;
 - (d) To provide for off-site retention through in-lieu fee payments;
 - (e) To comply with a Watershed Implementation Plan established under a Total Maximum Daily Load for the Chesapeake Bay; or
 - (f) To reduce Combined Sewer Overflows (CSOs) in compliance with a court-approved consent decree, including court-approved modifications, for reducing CSOs in the District, or in compliance with a National Pollutant Discharge Elimination System permit.

Subsection 517.6 is amended to read as follows:

- 517.6 A land-disturbing activity in the existing PROW is exempt from the requirements in § 520 (Performance Requirements for Major Land-Disturbing Activity) for maintaining post-development peak discharge rates.

A new Subsection 517.7 is added to read as follows:

- 517.7 The portion of a land-disturbing activity that consists of the installation or replacement of athletic playing fields, permeable athletic tracks, or permeable playground surfaces shall be exempt from the stormwater management requirements of this chapter, provided that:

- (a) The land-disturbing activity achieves the post-development peak discharge performance requirements for Major Land-Disturbing Activities, as documented on:
 - (1) A Soil Erosion and Sediment Control Plan approved by the Department that shows the project achieves the drainage layer and orifice sizing requirements of the Department's Stormwater Management Guidebook; or
 - (2) A Stormwater Management Plan approved by the Department;
- (b) The pre-project land cover is compacted cover or impervious cover;
- (c) The athletic playing field, permeable athletic track, or permeable playground surface is located at a school or public park and is made available for use by the general public; and
- (d) If the athletic playing field, permeable athletic track, or permeable playground surface drains to a Best Management Practice (BMP), any gallon retained by the BMP shall only be eligible for SRC certification if the gallon is retained in excess of the stormwater retention and treatment performance requirements of this chapter for the area that is otherwise exempt pursuant to this subsection.

Section 518, STORMWATER MANAGEMENT: PLAN REVIEW PROCESS, is amended as follows:

Subsection 518.3 is amended to read as follows:

- 518.3 The owner of a site shall submit an initial application for the Department's approval of a major regulated project in accordance with § 500.10, including:
- (a) One (1) electronic set of the SWMP, certified by a professional engineer licensed in the District of Columbia;
 - (b) Each supporting document specified in the Department's SWMG; and
 - (c) If requested by the Department, one (1) paper set of the SWMP, certified by a professional engineer licensed in the District of Columbia.

Subsection 518.8 is amended to read as follows:

- 518.8 After receiving notification that an application meets the requirements for the Department's approval, the applicant shall submit a final preconstruction application to the Department's submittal database in accordance with § 500.10, including:

- (a) The complete electronic SWMP, certified by a professional engineer licensed in the District of Columbia; and
- (b) Each supporting document specified in the Department's SWMG.

Subsection 518.9 is amended to read as follows:

518.9 After the applicant submits a final preconstruction application that meets the requirements for the Department's approval, the Department shall approve the plan electronically through the Department's submittal database.

Subsection 518.10 is amended to read as follows:

518.10 The Department shall provide the applicant with access to the approved plan in the Department's submittal database after the applicant submits proof to the Department:

NOTICE OF FINAL RULEMAKING

The Director of the Department of Health (DC Health), pursuant to authority set forth in Sections 104 and 105 of the Department of Consumer and Regulatory Affairs Civil Infractions Act of 1985 (“the Act”), effective October 5, 1985 (D.C. Law 6-42; D.C. Official Code §§ 2-1801.04(a)(1) and 2-1801.05 (2016 Repl.)), Sections 4902(a) and (b) of the Department of Health Functions Clarification Act of 2001 (Act), effective October 3, 2001 (D.C. Law 14-28; D.C. Official Code § 7-731(a)(11) and (b) (2018 Repl.)), and Mayor’s Order 2004-46(2) and (3)(v), dated March 22, 2004, hereby gives notice of the adoption of new aquatic facility infractions in Chapter 36 (Department of Health (DOH) Infractions), Title 16 (Consumers, Commercial Practices, and Civil Infractions) of the District of Columbia Municipal Regulations (DCMR).

These rules establish a new Section 3621 schedule of fines for swimming pool, spa, and sauna operations to correspond with the Department of Health’s Aquatic Facilities Regulations: Swimming Pools, Spa Pools, and Saunas in Title 25 (Food Operations and Community Hygiene Facilities), Subtitle C (Swimming Pool and Spa Regulations) of the DCMR, published in the *D.C. Register* on June 9, 2017, at 64 DCR 005359.

A Notice of Proposed Rulemaking was published in the *D.C. Register* at 66 DCR 7431 (June 21, 2019). On September 13, 2019, the Notice of Second Proposed Rulemaking was published in the *D.C. Register* at 66 DCR 012182. DC Health did not receive any comments and no changes were made to this Notice of Final Rulemaking. These rules were adopted as final on November 18, 2019, and will take effect immediately upon publication of this Notice in the *D.C. Register*.

Additions to Class 1 Infractions:

Commenter: Innovative Water Care, LLC

Comment: This letter is in regards to Notice ID N0083324, the proposed rulemaking for Aquatic Facilities Regulations. These proposed rules establish a new Section 3621 Schedule of Fines for swimming pool and spa operations, to correspond with the Notice of Final Rulemaking for Aquatic Facilities Regulations: Swimming Pools, Spa Pools, and Saunas in Subtitle C of Title 25 DCMR, which was published in the *D.C. Register* on June 9, 2017, at 64 DCR 005359. We are glad to hear that you are considering a list of infractions that are imminent health hazards requiring immediate closure of swimming pools. To protect public health, it is important to prioritize the code violations that could result in serious illness or injury to swimmers. Following are some suggested changes to the current draft along with the justification for the changes.

The following sections in §3621.2 Class 2 infractions should be moved to § 3621.1 Class 1 infractions.

- (d) Operating an aquatic facility with water quality pH level below 6.5 in violation of 25-C DCMR § 404.2(a)(1);

- (e) Operating an aquatic facility with water quality pH level above 8.0 in violation of 25-C DCMR § 404.2(a)(2);
- (f) The disinfectant level is below the minimum or above the maximum in violation of 25-C DCMR § 404.2(b)[.]

These changes are consistent with the text in the Centers for Disease Control and Prevention (CDC) Model Aquatic Health Code (MAHC 2018). Section 6.6.3 of the MAHC provides a list of imminent health hazards requiring immediate correction or closure, including pH less than 6.5, pH greater than 8.0 and “failure to provide the minimum disinfectant residual levels.”

In addition to moving these sections, the following text should be added to 3621.1:

The cyanuric acid level is above the maximum in violation of 25-C DCMR § 404.2(e);

The active form of chlorine in pools is hypochlorous acid. Cyanuric acid binds chlorine and lowers the hypochlorous acid concentration, thereby lowering the concentration of active disinfectant. An excessive concentration of cyanuric acid represents a situation where insufficient disinfectant is present and so is an imminent health hazard. Recent work has shown the increased risk of illness with cyanuric acid (Falk 2019). In addition, the U.S. Environmental Protection Agency (EPA) has recently notified drinking water primacy agencies of the effects of cyanuric acid and the importance of maintaining a sufficient hypochlorous acid residual (EPA 2018 and Wahman 2018).

Department of Health’s Response:

Section 3621.1 is amended as follows:

- (b) Operating an aquatic facility with water quality pH level below 6.5 in violation of 25-C DCMR § 404.2(a)(1);
- (c) Operating an aquatic facility with water quality pH level above 8.0 in violation of 25-C DCMR § 404.2(a)(2);
- (d) The disinfectant level is below the minimum or above the maximum in violation of 25-C DCMR § 404.2(b); and
- (e) Operating an aquatic facility with cyanuric acid level in excess of 100 ppm in violation of 25-C DCMR § 404.2(e)[.]

PUBLIC SERVICE COMMISSION OF THE DISTRICT OF COLUMBIA

NOTICE OF FINAL RULEMAKINGRM29-2019-01, IN THE MATTER OF 15 DCMR CHAPTER 29-RENEWABLE ENERGY PORTFOLIO STANDARD- CLEANENERGY DC OMNIBUS AMENDMENT ACT OF 2018,

1. The Public Service Commission of the District of Columbia (Commission) hereby gives notice, pursuant to Sections 34-802 and 2-505 of the District of Columbia Code¹, of its final rulemaking action adopting amendments to Chapter 29 (Renewable Energy Portfolio Standard) (RPS), of Title 15 (Public Utilities and Cable Television) of the District of Columbia Municipal Regulations (DCMR).

2. On May 3, 2019, the Commission issued a notice of proposed rulemaking (NOPR) to revise the Commission's RPS rules in accordance with the provisions of the CleanEnergy Act.² On June 3, 2019, the Commission received comments from WGL Energy Services, Inc. (WGL Energy).³ The District of Columbia Department of Energy & Environment filed reply comments on June 17, 2019.⁴ On July 1, 2019, 3Degrees Group, Inc. (3Degrees) filed comments.⁵ WGL Energy filed Sur-Reply Comments on July 16, 2019.⁶

3. After reviewing the comments, the Commission published another NOPR (Second NOPR) on November 8, 2019.⁷ The Second NOPR superseded the first NOPR published on May 3, 2019. In the Second NOPR, Subsection 2901.5 was amended to require electricity suppliers to report information regarding: a) their energy supply contracts that were executed prior to the October 8, 2016, effective date of the Renewable Portfolio Standard Expansion Amendment Act of 2016⁸ and were not, therefore, subject to the increased solar compliance fees pursuant to that Act in their annual RPS compliance reports; and b) their energy

supply contracts that were executed prior to the March 22, 2019, effective date of the CleanEnergy Act and were not, therefore, subject to the increased Tier One and Solar Energy standards pursuant to that Act in their annual RPS compliance reports.⁹

4. Language was added to Subsection 2901.5 to allow the compliance report form to be updated as needed by public notice and requiring each electricity supplier to report annually in its compliance report for the year following the compliance year that is the subject of the compliance report being filed, an estimate of the amount of compliance fees to be paid. The proposed amendments to Subsection 2901.7 changed the deadline from April 1, to the period October 1 to November 1 for the submission of annual compliance fees. Subsection 2901.9 was similarly revised to reflect this change. Subsection 2901.12 was revised to reflect that energy supply contracts executed prior to the effective date of the CleanEnergy Act are not subject to the increased tier one and solar energy standards. Subsection 2901.13(c) was revised to extend the three hundred dollar (\$300) compliance fee for each REC shortfall for solar energy sources from 2029 through 2032 to 2029 through 2041 and provided for a one hundred-dollar (\$100) compliance fee for each REC shortfall for solar energy sources in 2042 and thereafter, consistent with the CleanEnergy Act.¹⁰

5. In addition, pursuant to the CleanEnergy Act, the proposed amendments to Subsection 2902.16 changed the definition of a REC by phasing out the certification and the eligibility of RECs in adjacent PJM states and the eligibility of RECs produced by those generators. The proposed amendments to Subsection 2903.4 extended the life of solar RECs (SREC) from three (3) years from the date of generation to five (5) years from the date of generation. Subsection 2903.4 was also revised to reflect that, after December 31, 2028, the RECs that had been produced by renewable generators, on or before that date, that were certified as tier one sources located within an adjacent PJM state on or before March 22, 2019, the effective date of the CleanEnergy Act, shall be valid for the remainder of the three (3)-year period from the date of generation. Subsection 2903.4 was revised to reflect that the SRECs produced by such facilities, on or before December 31, 2028, shall be valid for the remainder of the five (5)-year period from the date of generation. The proposed amendments to Subsection 2999.1 harmonized the definition of a REC with the CleanEnergy Act; revised the definitions of “Adjacent PJM State” and “PJM Interconnection region;” and added new terms and definitions for “Compliance Year;” “Energy Supply Contract;” and “PJM Interconnection, L.L.C.”¹¹

6. On December 9, 2019, the Commission received comments in response to the Second NOPR from 3Degrees and WGL Energy.¹² The Commission approved the amendments as proposed as well as a provision correcting a scrivener’s error in Subsection 2902.16 in a vote at the January 21, 2020 open meeting, with the amendments becoming effective upon publication

DEPARTMENT OF HEALTH CARE FINANCE

NOTICE OF PROPOSED RULEMAKING

The Director of the Department of Health Care Finance (DHCF), pursuant to the authority set forth in An Act to enable the District of Columbia (District) to receive federal financial assistance under Title XIX of the Social Security Act for a medical assistance program, and for other purposes, approved December 27, 1967 (81 Stat. 744; D.C. Official Code § 1-307.02 (2016 Repl. & 2019 Supp.)) and Section 6(6) of the Department of Health Care Finance Establishment Act of 2007, effective February 27, 2008 (D.C. Law 17-109; D.C. Official Code § 7-771.05(6) (2018 Repl.)), hereby gives notice of the proposed adoption of a new Chapter 88 (Program of All-Inclusive Care for the Elderly) of Title 29 (Public Welfare) of the District of Columbia Municipal Regulations (DCMR).

This proposed rulemaking implements the requirements of the Program of All-Inclusive Care for the Elderly Establishment Act of 2018, effective March 13, 2019 (D.C. Law 22-246; D.C. Official Code § 7-571 (2019 Supp.)), which authorizes the establishment of a Program of All-Inclusive Care for the Elderly (PACE) in the District. These rules establish standards governing eligibility criteria for participants, covered services, conditions of participation for providers, reimbursement, data collection, reporting requirements, and quality improvement for the District PACE program. The estimated four-year (FY 2019 - FY 2022) total cost associated with the implementation of PACE is \$42,180,543, which was included in the District's local budget for Fiscal Year 2019.

PACE is a nationally recognized model of care that integrates Medicare and Medicaid benefits in order to provide beneficiaries with the entire continuum of necessary medical care and support services. PACE beneficiaries are eligible for a broader array of benefits than is typically available under either Medicaid or Medicare programs and their care is managed by a comprehensive, interdisciplinary team of clinical professionals working to deliver highly coordinated, quality care. To be eligible for PACE, an individual must be fifty-five (55) years of age or older, in need of a nursing home level of care, able to live safely in the community, and residing in a designated PACE service area. The blended PACE payment model includes both Medicare and Medicaid financing and all regularly covered Medicare and Medicaid services are integrated at a community-based PACE center.

This proposed rulemaking corresponds to a related State Plan Amendment (SPA), which requires approval by the U.S. Department of Health and Human Services, Centers for Medicare and Medicaid Services (CMS). Accordingly, these rules shall become effective for PACE established on either January 1, 2020, or the effective date established by CMS in its approval of the corresponding SPA, whichever is later. Once approved by CMS, the corresponding SPA will be added to the District's Medicaid State Plan, which can be found on DHCF's website at <https://dhcf.dc.gov/page/medicaid-state-plan>.

The Director also gives notice of the intent to take final rulemaking action to adopt these rules not less than thirty (30) days from the date of publication of this notice in the *D.C. Register*.

A new Chapter 88, PROGRAM OF ALL-INCLUSIVE CARE FOR THE ELDERLY, of Title 29 DCMR, PUBLIC WELFARE, is added to read as follows:

2005 WAGERS

2005.3 A Wager is only considered placed when it is Confirmed by the Office.

2005.4 All confirmed Wagers are final.

2005.5 A Player cannot cancel or refund Wagers once they have been Confirmed by the Office.

2005.6 Wagers lost in transmission will not be recorded and therefore will not be confirmed. A Player will be required to have a high-speed internet connection to place Wagers for geolocation purposes. The Office is not responsible for costs associated with use of a high-speed internet connection.

2005.7 A Wager can only be placed on a given Sports Event if it is available on the Mobile App or Site and the terms for placing the Wager have not expired. The Office has the sole discretion to determine what Wagers are available at any given time on the Mobile App and Site. The Office only allows Wagers on Sport Events with a Governing Body.

2005.8 Wagers are processed in the order they are received. Unless otherwise stated, all times shown on the Mobile App or Site or terminal are Eastern Time (ET). Generally, Pre-Game Wagers must be placed prior to the start time of the Sports Event. The start time for a Sports Event is the official start time declared by the competition's Governing Body. For Sports Events in which an official start time is not declared, the advertised start time of the Sports Event is considered the start time. At the discretion of the Office, Pre-Game Wagers may be accepted after the start time of the Sports Event if the final result is not known and no team or participant has achieved a material advantage (such as, but not limited to, scoring a goal or touchdown or expulsion of a player) at the time the Pre-Game Wager is placed. Disputes regarding the time a Wager is placed are resolved by the Office.

2005.9 The Office reserves the right to void any Wager at any time for any reason. If the outcome of the Sports Event is known or a material advantage has occurred, the

Office reserves the right to void the Wager, regardless of its outcome. If an In-Game Wager has been placed after the outcome of the Event Wagered on is known or a team or participant has achieved a material advantage (e.g., scoring a goal or touchdown or expulsion of a player), the Office reserves the right to void the In-Game Wager, regardless of its outcome. If the Office cannot satisfactorily determine the official Sports Event results, then the Office may void and refund the Wager amount only as provided in the House Rules. A Wager is void and no Winnings will be paid if the Office determines a Player placed the Wager illegally or otherwise violated these rules.

- 2005.10 The Wager amount is at the sole risk and discretion of the Player, except that the Office may impose minimum and maximum Wager amount limits or prize amount limits at any time. Such limits will be communicated to the Player on the Mobile App and Site. The Wager amount may not exceed the amount in the Account. When a Player places a Wager, the Wager amount is deducted from the Account and ultimately withdrawn from the Account. Notwithstanding the foregoing, a Player may self-impose limits in accordance with the Office's Responsible Gaming Program.
- 2005.11 The Office determines if a Wager is a winning Wager based on the official Sports Event results. The scores and results for a game become the official Sports Event results when the Office enters the results in the Office gaming system. Before the results are declared official by the competition's Governing Body, the Office may recognize changes to the results and resettle Wagers, but once the results are declared official, the Office will generally not recognize changes including, but not limited to, the game's final score, or any protests, overturned decisions, or statistical changes made by the competition's Governing Body that changes the final score or call on a particular play.
- 2005.12 A "push" means that the official result of a Sports Event ends right on the listed point spread or finishes in a draw or tie. For such Wagers, the Winnings are equal to the original Wager amount and subject to Offsets as referenced in these rules.
- 2005.13 Subject to 30 DCMR § 400 (Hearings), Players agree that the Office's decision are final and binding on all matters in relation to Wagering, or the Player's eligibility for a prize, claim or Winnings.
- 2005.14 The Player accepts that, from time to time, errors may be involved with Wagers and a resettlement of the Wager may be required. Errors for purposes of resettlement include, operator errors, the competition's Governing Body changes a call on a particular play or final score or a malfunction may cause Winnings to be incorrectly credited to the Player's Account.
- 2005.15 If there is a discrepancy between the numbers that the Player believes they entered or the graphic display of the Game and those in the Office's gaming system or any of Office's service provider's databases, the numbers in the database are considered valid.

2005.16 If it appears that a series of Wagers contain duplicative or identical selections made by, or on behalf of, the same person or group of people, or in their favor, the Office reserves the right to suspend the Players' Accounts involved until an investigation is completed. These Wagers are ineligible for Winnings.

2006 PRIZE CLAIMS

2006.1 Winnings are only paid if the Office has previously verified all relevant information including, name, age and Physical Address of the Player.

2006.2 Prize payments are subject to tax withholding and reporting.

2006.3 Prize payments may be subject to delinquent child support offsets and other offsets required by law.

2006.4 The Foreign Account Tax Compliance Act (FATCA) requires U.S. taxpayers to report certain foreign financial accounts and offshore assets. It also requires certain foreign financial institutions to report all U.S. account holders who are specified U.S. citizens. Players are responsible for complying with any FATCA requirements they may be subject to.

2006.5 A Claim may not be premised upon the human or electronic error in the communication, display or transmission of data regardless of how that data is recorded, displayed or transmitted. A Claim may not be premised upon any intentional human, electronic or other form of communication or transmission that was not authorized by the Office. The Office is not liable for any damages or losses resulting from any erroneous or unauthorized communication, display or transmission of data.

2007 WITHDRAWING PRIZES

- (a) Deduct the Withdrawal amount from their Account;
- (b) Retain any amount owed to the Office under these terms; and
- (c) Share their personal information with any third parties the Office uses to process the request.

- 2007.5 Players cannot make any Withdrawal, including any prize amount, until they have successfully completed at least one verified Deposit. The Office is not liable for any damages or losses resulting from delay in processing a Withdrawal.
- 2007.6 Before processing a Withdrawal, the Office may require Players to provide additional information, provide copies of documents, or appear in person at Office headquarters. Players may also be required to complete additional Claim forms and/or certify documentation detailing their Deposits, Withdrawals, and other Account transactions.
- 2007.7 The Office may hold any Withdrawal if it is suspected that a Player may be engaging in or have engaged in fraudulent, collusive, unlawful or improper activity pending completion of an investigation. Players are required to cooperate in any investigation into such activity. A Player's refusal to cooperate with an investigation may lead to a hold being placed on their Withdrawal. The Office is not liable for any damages or losses resulting from any delay or denial of a Withdrawal resulting from an investigation.

2008 SPORTS WAGERS AND WAGER TYPES

- 2008.1 The Office may offer the following Wagers and Wager types:
- (a) Money Line—A Money Line or straight up wager is a bet on the outright winner of the game or event without any point spread odds;
 - (b) Point Spread/Handicap—A Point Spread Wager is when a plus or minus Handicap (line) is assigned to either team and then it is added or subtracted to each final score to determine the winner. The Point Spread represents the margin of points in which the favored team must win by to “cover the spread”;
 - (c) Total Over/Under—Total Over/Under Wagers are placed on a line set by the Office that is the total combined score at certain points during the game, including any extra time added if the score was tied at the end of regulation time. In a Total Over/Under Wager, a Player predicts the score to be lower or higher than the set line to win the Wager;
 - (d) Head to Head—Head to Head Wagers are available for games or events in which a direct comparison can be made between two teams or two individual participants in a game or event;
 - (e) Odd/Even—Odd/Even involves predicting whether the total points scored in a game or event will be an odd or even number. This Wager can be offered for an individual team separately, or for a specified period of the game, or for any combination of team and period in which case the prediction will only involve the score in these specific periods. In all circumstances, zero (0) is considered to be an even number;

- (f) Proposition “Prop” Wagers—Proposition Wagers are wagers on a specific outcome during an event that does not relate to the final score. They may be offered as “Team Props,” “Player Props” and “Special Props.”;
- (g) Single Wager—A Single Wager is the most commonly used wager type. It is a straight bet based on the outcome of an event. Winnings are calculated by multiplying the odds of the selection by the stake;
- (h) Futures/Outrights—A Future Wager is a Wager placed on a game or event typically held far in advance such as which team will win a championship or series;
- (i) Parlay Wager—Parlay Wagers combine multiple individual Wagers into one Wager on a single ticket. The total odds in a Parlay Wager are calculated by multiplying the odds of all the individual picks. A Parlay Wager does not pay out anything unless all the selections on the ticket are correct;
- (j) System Wager—System Wagers require at least three or more selections on a single ticket. The main difference between System Wagers and Parlay Wagers is that a System Wager can be won without all selections on the ticket being correct;
- (k) Banker—Bankers are available only with System Wagers. The Player will usually choose a Banker Wager to be the wager within a System Wager that they feel has the highest probability of success. A Banker Wager must be correct otherwise the entire Wager fails. The amount of the winnings on a System Wager with a Banker depends on how many of the selections are correct. If the Banker is incorrect or the System Wager criterion is not satisfied, the Player loses the Wager;
- (l) In-Game Wagering—In-Game Wagering involves placing a Wager during a game or event. Odds for In-Game Wagers change after almost every play or possession throughout the game; and
- (m) Dead Heat—Dead Heat is a situation in which two or more competitors achieve the same result. In the case of Dead Heat Wagers the stake money is proportionately divided according to the number of selections which had a Dead Heat result and are paid at full-odds.

2009**FOOTBALL**

2009.1

Overtime is taken into account for football Wagers except for the following Wager types: Final Result in the form of Home/Tie/Away or 1X2; Half Time/Full Time (Home/Tie/Away or 1X2); and, those Wagers that have to do with second (2nd) half or fourth (4th) quarter in which the score of the specific time period of the game is taken into account. In the instance where the game is suspended before the completion of regulation time, but with five (5.00) or less minutes

remaining on the clock (based on the individual rules per competition) and the game is not continued within the next twenty-four (24) hours, then all Wagers take into account the result at the time of suspension.

2009.2

The Office may offer the following football Wager types:

- (a) Money Line—In a “Money Line” Wager, the Player predicts the outright winner of the game (either for the home team or away team to win). There is no Point Spread involved in a Money Line Wager. In the event of a tie, the stake will be returned to the Player.
- (1) In a 3way “Money Line” Wager the Player has three options, to predict either the home team to win, the away team to win, or for the game to end in a tie (not taking into account any overtime played).
 - (2) In a 3way Money Line “1st Half Winner” Wager, the Player predicts the result of the 1st half of a game by correctly selecting either for the home team to win, for the away team to win, or for the first (1st) half to end in a tie.
 - (3) In a 3way Money Line “2nd Half Winner” Wager, the Player predicts the result of the 2nd half of a game by selecting either for the home team to win, for the away team to win, or for the 2nd half to end in a tie, taking into account only the points scored in the 2nd half. In a 3way Money Line “2nd Half Winner, including Overtime,” the Player predicts the result of the 2nd half of a game (home team to win, away team to win, or tie), taking into account the points scored in the 2nd half, including overtime played.
 - (4) In a 3way Money Line “Quarter Winner” Wager, the Player predicts the result of each quarter of a game by selecting either for the home team to win, for the away team to win, or for the quarter to end in a tie, taking into account only the points scored in the quarter wagered on.
 - (5) In a 3way Money Line “4th Quarter Winner, Including Overtime” Wager, the Player predicts the result of the 4th quarter of a game by selecting either for the home team to win, for the away team to win, or for the quarter to end in a tie, taking into account only the points scored in the 4th quarter, including overtime played.

To make a “Half Time/Full Time” Wager, the Player selects either for the home team to win, for the away team to win, or for the 1st half to end in a tie and does the

same (home team to win, away team to win, or tie) for the 2nd half result.

- (b) Point Spread/Handicap—A Point Spread Wager is when a plus or minus Handicap (line) is assigned to either team and then it is added or subtracted to each final score to determine the winner. The Point Spread represents the margin of points in which the favored team must win by to “cover the spread.”

This Wager can be offered for one half (“1st Half with Point Spread”; “2nd Half with Point Spread”; and, “2nd Half with Point Spread, Including Overtime”), or quarter (“1st Quarter with Point Spread”; “2nd Quarter with Point Spread”; “3rd Quarter with Point Spread”; “4th Quarter with Point Spread”; and, “4th Quarter with Point Spread, Including Overtime”) or for any specified time period of the game in which case the prediction involves the points scored for this specific time period of the game.
- (2) In a “Spread Winning Margin” Wager, the Player predicts if the total number of points scored in a game is within a range of points publicized. This Wager can be offered for only one team (home or away), or one half (1st half or 2nd half) or quarter (1st quarter, 2nd quarter, 3rd quarter, or 4th quarter), or for any specified time period of the game, or any combination of team and period in which case the prediction involves the points scored for this specific time period of the game.
- (c) Total Over/Under—In a “Total Over/Under” Wager, the Player predicts if the total number of points scored in a specific time period, or time of a game, is greater or less than a range publicized. - (1) In a “Highest Scoring Half/Quarter” Wager, the Player predicts in which half (1st half or 2nd half) or quarter (1st quarter, 2nd quarter, 3rd quarter, or 4th quarter) the most points will be scored. This Wager can be offered for each team (home and away) separately.
 - (2) In a “1st Team to Score” Wager, the Player predicts which team (home or away) will score the first point(s) in a game. half) or quarter (1st quarter, 2nd quarter, 3rd quarter, or 4th quarter), or for any specified time period of the game, or any combination of team and time period in which case the prediction involves the points scored for this specific time period of the game.

- (8) In a “Player Specials” Wager, the Player predicts if selected players/athletes on the active roster of a team will achieve specific results in specified statistical categories in the form of: A greater or lesser result within a specified limit; or within a specified range; or which player/athlete will achieve the highest statistical result (*e.g.* pass for the most yards) amongst all or some specifically named players/athletes; or as a “Yes/No” option or as single “Yes” option. For all “Player Specials,” Wagers placed on players/athletes that were not on the active roster will be refunded. Wagers on players/athletes that were on the active roster but were not used (did not play in the game), are considered as non-winning Wagers.

BASEBALL

2011.1 For all Baseball Wagers, the complete game is taken into account as well any additional extra innings that may need to be played to determine a game winner. When a Baseball game is suspended and not continued from the moment of suspension and completed within the next calendar day, then the final result will be considered the result at the time of suspension when the game is concluded at the bottom of the ninth (9th) inning (8.5 innings played) with the home team ahead in runs or when the “Mercy Rule” is applied and the game is suspended before completion. - (d) Odd/Even Runs/Hits—In an “Odd/Even Runs/Hits” Wager, the Player predicts whether the total runs or hits scored in a game will be an odd or even number. This Wager can be offered for each team (home and away)

separately, or per inning (1st inning, 2nd inning, 3rd inning, 4th inning, etc.), or for any specified time period of the game, or any combination of team and time period in which case the prediction involves only the number runs that were scored during the specified time period of the game. This Wager can be offered for a specific period (1st period, 2nd period, or 3rd period) of a game or for a specified time period of the game in which case the prediction will only involve the goals scored in these specific time periods.
- (4) In a “Both Teams to Score” Wager, the Player predicts if both teams (home and away) will score at least one goal during a game (this will be called “Goal”) or if any one of the two teams (home or away) or both teams will not score during a game (this will be called “No Goal”). This Wager can be offered for each period (1st period, 2nd period, or 3rd period) of a game separately or for any specified time period of the game in which case the prediction involves only the number goals that were scored during the specified time period of the game.

- (5) In a “Team to Score 1st/Next/Last Goal” Wager, the Player predicts which team (home or away) will score the first goal, every subsequent (Next) goal, or the final goal (Last Goal) of a game. This Wager can be offered for a specific period (1st period, 2nd period, or 3rd period) or for any specified time period of the game in which case the prediction involves only the number goals that were scored during the specified time period of the game.
- (6) In a “Race To” Wager, the Player predicts which team (home or away) will be the first to score a specified number of goals (*e.g.*, “Race to 3 Goals” – which team will first score three goals) in a game. 2013**SOCCER**

- 2013.1 For soccer Wagers, the result of regulation time is taken into account plus time added to the game in respective of possible delays. Extra time and penalties are not taken into account for soccer Wagers, unless stated in the program or in the Wager type’s description.
- 2013.2 The Office may offer the following soccer Wagers:
- (a) Money Line—A “Money Line” or straight up Wager is a bet on the outright winner of the game or event without any Point Spread odds.

- (1) In a 3way “Money Line” Wager, the Player predicts the final outcome of a game by correctly selecting home team to win, away team to win, or a tie at the end of the game (not taking into account any overtime played). An exception to the general provisions rules is when a game is suspended after the start of the 2nd half and the remaining game is not played within the next twenty-four (24) hours, then the result at the time of suspension is considered as the final result.
- (2) In a 3way “1st Half Winner” and 3way “2nd Half Winner” Wager(s), the Player predicts the result of the 1st half or 2nd half of a game by correctly selecting home team to win, away team to win or a tie at the end of the specified half.
- (3) In a “Winner Interval” Wager, the Player predicts the result of a specified period (home/tie/away) of a game (e.g., 1-15 minute(s) of the game).
- (4) In a “Winner of the Rest of the Match” Wager, the Player predicts the result of the game (home/tie/away) from the moment a Wager is placed until the end the game. This Wager can also be offered per half (1st half or 2nd half), or any other specified time period where the prediction will only involve these specific time periods.
- (5) In a “Half Time/Full Time” Wager, the Player predicts the combination of the result of the 1st half with the final result of a game.
- (6) In a “Home No Wager” Wager, the Player predicts the game’s final result without factoring in a “home win.” The Wager will be refunded if the home team wins. In cases where the final result of a game is the one that is not factored into the Wager, then all Wagers will be refunded. This Wager can be offered for each half (1st half or 2nd half) or for any specified time period of the game. In the latter case, the prediction involves only the number goals that were scored during the specified time period of the game.
- (7) In a “Tie No Wager” Wager, the Player predicts the game’s final result without factoring in a tie. The Wager will be refunded is the game’s final result is a tie. In cases where the final result of a game is the one that is not factored into the Wager, then all Wagers will be refunded. This Wager can be offered for each half (1st or 2nd half) or for any specified time period of the game. In the latter case, the prediction involves only the number goals that were scored during the specified time period of the game.

- (8) In an “Away No Wager” Wager, the Player predicts the game’s final result without factoring in an away win. The Wager will be refunded if the away team wins. In cases where the final result of a game is the one that is not factored into the Wager, then all Wagers will be refunded. This Wager can be offered for each half (1st half or 2nd half) or for any specified time period of the game. In the latter case, the prediction involves only the number goals that were scored during the specified time period of the game.
- (b) Point Spread/Handicap—A Point Spread Wager is when a plus or minus Handicap (line) is assigned to either team and then it is added or subtracted to each final score to determine the winner. The Point Spread represents the margin of points in which the favored team must win by to “cover the spread.”
- (1) In a “Final Result with Points Spread/Handicap” Wager, the Player predicts the final outcome of a game, taking into account a Point Spread/Handicap given to one of the two teams, correctly selecting home team to win, away team to win, or a tie at the end of the game (not taking into account any overtime played). The Point Spread/Handicap can be a whole number or not. This Point Spread/Handicap is taken into account when determining a winning prediction. If the Point Spread/Handicap is not a whole number, then a tie cannot be a resulting outcome. This Wager type can be offered for one half of a game (1st half or 2nd half) or for a specified time period of the match in which case the prediction will only involve this specific time period.
- (2) “Asian Handicap” are types of Wagers used in soccer in which teams are Handicapped, so that the stronger team must win by more goals than the weaker team. Asian Handicap involves the Player predicting the result of a match after the Handicap or spread has been applied to the teams.
- (A) A head-start of one half or more goals will be given to one of the teams which will be added to the actual number of goals scored.
- (B) Whole goal Handicap is a Handicap of +/- one or more goals will be given to each of the teams which will be added to the actual number of goals scored. Wagers placed will be void if the match ends in a tie.
- (C) Half goal Handicap is a Handicap of +/- 0.5 (half of one) or more goals will be given to each of the teams which will be added to the actual number of goals scored. Wagers placed cannot end in a tie.

- (D) Split Handicap is a Handicap of +/- 0.25 (quarter of one) or more goals will be given to each of the teams. The Wager will be divided equally between two Wagers, with one half of the Wager placed on the whole Handicap +/- 0.0 (scratch) or more and the other half of the Wager placed on the half Handicap 0.5 (half of one) or more, which will be added or subtracted to the actual number of goals scored by each team. The split Handicap is always the half-way point between the whole Handicap and the half Handicap.
- (E) The split is shown as follows (Handicaps can go as high as the operator desires under similar logic):

Handicap	Whole Goal Handicap	Half Goal Handicap
+/- 0.25	+/- 0.00	+/- 0.50
+/- 0.75	+/- 1.00	+/- 0.50
+/- 1.25	+/- 1.00	+/- 1.50

EXAMPLE: Team A (+ 0.25) vs. Team B (- 0.25)

If a Wager is placed on Team B and the game result is Team A 1-1 Team B:

50% of the Wager will be placed on the whole goal Handicap of 0.00. The Handicap result will be Team A 1-1 Team B. This half of the Wager is void.

50% of the Wager will be placed on the whole goal Handicap of - 0.50. The Handicap result will be Team A 1-½ Team B. This half of the Wager has lost.

If a Wager is placed on Team A and the game result is Team A 1-1 Team B:

50% of the Wager will be placed on the whole goal Handicap of 0.00. The Handicap result will be Team A 1-1 Team B. This half of the Wager is void.

50% of the Wager will be placed on the whole goal Handicap of + 0.50. The Handicap result will be Team A 1½-1 Team B. This half of the Wager has won.

- (c) In a “Total Over/Under Goals” Wager, the Player predicts if the total number of goals scored in a game will be greater or less than a limit of goals publicized. This Wager can be offered for an individual team (home and away) separately or for a specific half (1st half or 2nd half) or for a specified time period of the game, or any combination of team and interval in which case the prediction will only involve these specific time periods.
- (1) In an “Exact Number of Goals” Wager, the Player predicts the exact number of goals that will be scored in a game. This Wager can be offered for each team (home and away) separately, or for each half (1st half or 2nd half) or for any specified time period of the game, or any combination of team and time period. In the latter case, the prediction involves only the number of goals that were scored during the specified time period of the game.
- (2) In a “Total Goals Aggregated” Wager, the Player predicts the number of goals that will be scored in a game where their selected number of goals will be within a specified range. This Wager can be offered for each team (home and away) separately, or for each half (1st half or 2nd half), or for any specified time period of the game, or any combination of team and time period. In the latter case, the prediction involves only the number of goals that were scored during the specified time period of the game.
- (d) In an “Odd/Even” Wager, the Player predicts whether the total goals scored in a game will be an odd or even number. This Wager can be offered for each team (home and away) separately or for each half (1st half or 2nd half) or for any specified time period of the game, or any combination of team and time period. In the latter case, the prediction involves only the number goals that were scored during the specified period of the game. In all circumstances, zero (0) is considered to be an even number.
- (e) Proposition “Prop” Wagers—Proposition Wagers are wagers on a specific outcome during an event that does not relate to the final score. They may be offered as “Team Props,” “Player Props” and “Special Props.”
- (1) In “Scorer” Proposition Wagers the following rules apply:
- (A) If a Wager is placed on which player/athlete will score the 1st goal of a game and the selected player/athlete did not take part in the game or entered the game after the first goal was scored, the Wager is refunded.
- (B) If a Wager is placed on which player/athlete will score the last goal of the game and the selected player/athlete did not

take part in the game or had been substituted before the last goal was scored, the Wager is refunded.

- (C) If a Wager is placed on which player/athlete will score any goal in the game and the player/athlete did not take part in the game, the Wager is refunded.
 - (D) A Wagering line can include only one prediction for the Wager type “Any Goal Scorer.”
 - (E) If a goal scored is an “Own Goal” (a player/athlete scores on their own side of the playing area rather than the one defended by the opposing team), then this is not taken into account unless there are odds offered for “Own Goal.”
 - (F) The following “Scorer” Proposition Wager Types may be offered:
 - (i) In a “1st Goal Scorer” Wager, the Player predicts which player/athlete will score the first goal of the game.

 - (B) In an “Odd/Even Corners” Wager, the Player predicts whether the total number of corners awarded is an odd or even number. This Wager can be offered for one team (home or away), or one half (1st half or 2nd half), or for any specified time period of the game, or any combination of

team and time period in which case the prediction involves only the corners awarded for this specific time period of the game. In all circumstances, zero (0) is considered to be an even number.

- (C) In a “Sum of Corners” Wager, the Player predicts the total numbers of corners that will be awarded where the choice will be given as an exact number of corners or in a specified range of corners. This Wager can be offered for one team (home or away), or one half (1st half or 2nd half), or for any specified time period of the game, or any combination of team and time period in which case the prediction involves only the corners awarded for this specific time period of the game.
- (D) In a “1st/Next/Last Corner” Wager, the Player predicts which team (home or away) will be awarded the 1st corner, every subsequent (Next) corner or the final (Last Corner) corner of a game. This Wager can be offered for one team (home or away), or one half (1st half or 2nd half) or for any specified time period of the game, or any combination of team and period in which case the prediction involves only the number of corners awarded for this specific time period of the game. This Wager can be offered with a Handicap of corners awarded to one team. The Handicap can be a whole number or not which is taken into account when considering the winning outcome. If the Handicap is not a whole number, then a tie cannot be a resulting outcome.
- (F) In a “Corner Handicap” Wager, the Player predicts which team (home or away) will be awarded the most corners in a game, taking into account a Handicap for one of the two teams. This Wager can be offered for each half (1st half or 2nd half) separately, or for any specified time period of the game, or any combination of team and time period in which case the prediction involves only the number of corners awarded for this specific time period of the game. This Wager can be offered with a Handicap of corners awarded to one team. The Handicap can be a whole number or not which is taken into account when considering the winning

outcome. If the Handicap is not a whole number, then a tie cannot be a resulting outcome.

- (3) The following “Bookings” Proposition Wager rules apply:
- (A) There are certain cards that are not taken into account for Wager purposes, including: Cards shown following the end of the game, or during the interval between 1st and 2nd half, or to members of the team that are not players/athletes (*e.g.*, managers, coaches, etc.), or to players/athletes that did not take part in the game, or to players/athletes that had already been substituted when the card was shown to them.
 - (B) In the instance where a player is shown a second yellow card in a game and then shown a red one, both yellow cards and the one red card are taken into account.
 - (C) In the instance where the referee shows two or more yellow or red cards during the same incident of the game, the order with which the referee showed the cards to the player(s) is taken into account. If this cannot be verified by any reliable means, then the cards are considered to have been shown simultaneously.
 - (D) The Office may offer the following “Bookings” Proposition Wager Types.
 - (E) The following Wager types for cards may be offered for both color (yellow or red) of cards (Bookings).
 - (i) In a “Total Over/Under Bookings” Wager, the Player predicts if the total cards shown in a game are greater or less than a limit publicized or predicts whether there will be a card shown in the form of “Yes/No.” This Wager can be offered for one team (home or away), or one half (1st half or 2nd half), or for any specified time period of the game, or any combination of team and time period in which case the prediction involves only the number of cards shown for this specific time period of the game.
 - (ii) In an “Odd/Even Bookings” Wager, the Player predicts if the total number of cards shown in a game is an odd or an even number. This Wager can be offered for one team (home or away), or one half (1st half or 2nd half), or for any specified time period of the game, or any combination of team and time

period in which case the prediction involves only the number of cards shown for this specific time period of the game. In all circumstances, zero (0) is considered to be an even number.

- (iii) In a “Sum of Bookings” Wager, the Player predicts the total number of cards shown in a game, where the selections are made with an exact number of cards or within a range of cards. This Wager can be offered for one team (home or away), or one half (1st half or 2nd half), or for any specified time period of the game, or any combination of team and time period in which case the prediction involves only the number of cards shown for this specific time period of the game.

This Wager can be offered for one team (home or away), or one half (1st half or 2nd half), or for any specified time period of the game, or any combination of team and time period in which case the prediction involves only the number of cards shown for this specific time period of the game.
 - (v) In a “Most Bookings” Wager, the Player predicts which team will be shown the most cards in a game. This Wager can be offered for one team (home or away), or one half (1st half or 2nd half), or for any specified time period of the game, or any combination of team and time period in which case the prediction involves only the number of cards shown for this specific time period of the game.
- (4) The Office may offer the following other Proposition Wagers:
- (A) In a “Half with Most Goals” Wager, the Player predicts which half of a game (1st half or 2nd half) that the most goals will be scored in.
 - (B) In a “Correct Score” Wager, the Player predicts the number of goals scored in a game. This Wager can be offered separately for each half (1st half or 2nd half) or interval which means that only the score of the half (or interval) is taken into account. This Wager can also be offered with

selections of groups of scores (e.g., 1-0, 2-0, 2-1 combined).

- (C) In a “Both Teams to Score” Wager, the Player predicts if both teams will score at least one goal during a game (called “Goal”) or if any one of the two teams (home or away), or both teams, will not score during a game (called “No Goal”). This Wager can be offered for each half separately (1st half or 2nd half) or for any specified time period of the game. In the latter case, the prediction involves only the number goals that were scored during the specified time period of the game. This Wager can also be offered as a combination of the two halves, with the Player having to predict whether both teams will score during the 1st half combined with whether both teams will score in the 2nd half.
- (D) In a “Team to Score 1st/Next/Last Goal” Wager, the Player predicts which team (home or away) will score the first, every subsequent (Next) goal or the final (Last Goal) goal of a game. This Wager can be offered for each half (1st half or 2nd half) or for any specified time period of the game. In the latter case, the prediction involves only the number goals that were scored during the specified time period of the game.
- (E) In a “Score Both Halves Home/Away” Wager, the Player predicts whether one of the two teams (home or away) will score at least one goal in both halves (1st half and 2nd half) of the game.
- (F) In a “Win Both Halves Home/Away” Wager, the Player predicts whether the team selected (home or away) will score more goals than its opponent in both halves (1st half and 2nd half) separately.
- (G) In a “Winner 1st Half or Full Time” Wager, the Player predicts whether the team selected (home or away) will score more goals than their opponent in either the 1st half or the match.
- (H) In a “Winner 1st Half or 2nd Half” Wager, the Player predicts whether the team selected (home or away) will score more goals than its opponent during the 1st half of the game or in the 2nd half of the game.

- (J) In a “Margin of Victory” Wager, the Player predicts the margin of victory of one team (home or away) by the exact number or ranges of goals. This Wager can be offered for each half (1st half or 2nd half) or for any specified time period of the game. In the latter case, the prediction involves only the number goals that were scored during the specified time period of the game.
- (K) In a “Race To” Wager, the Player predicts which team (home or away) will be the first to score a specified number of goals (*e.g.*, “Race to 2 Goals “– which team will be the first to score two (2) goals) in a game. This Wager can be offered for each half (1st half or 2nd half) or for any specified time period of the game. In the latter case, the prediction involves only the number goals that were scored during the specified time period of the game.
- (L) In a “Time of 1st Next/Last Goal” Wager, the Player predicts the time, in minutes, when the 1st goal, every subsequent (Next) goal or final (Last Goal) goal of the game will be scored. This can be a range in minutes (*e.g.*, 1-10’, 11-20’, etc.) or take the form of “before or after” or “Total Over/Under” a specific minute (*e.g.*, 1-30’, after the 31st minute, etc.). For Wager settling purposes, the time of the goal is considered the time that it was scored and not the time it was confirmed as a valid goal. For example, if goal is scored at 28:36 and after an original referee call that disallows it, a VAR (Virtual Assistant Referee) is used and the goal is then deemed valid at 30:45, the goal time will count at 28:36.
- (f) In a “Game Combo” Wager, the Player predicts any double combination of Final Result or double chance with Total Over/Under of a specified limit, or Both Teams to Score, or Sum of Goals, or any double combination of Total Over/Under of a specified limit and Both Teams to Score, or any double combination of Final Result and 1st/Next/Last Goal team to score by choosing the combination of the respective selections or any combination of Half-Time/Full-Time result and Total Over/Under of a specified limit. Any of the above combinations, or legs of the combination, can refer to a specific half (1st half or 2nd half) or for a specified time period of the game, in which case the prediction will only involve these specific time periods.

2014 TENNIS

2014.1 In the instance where a tennis match is cancelled, or postponed, or suspended and is not completed within the competition's time frame it was scheduled for, then all Wagers that involve this match are refunded. An exception to this rule is for Wagers whose results have already been decided and cannot change even if the match was played on. In the event where less sets are played than were originally scheduled, then all Wagers that include this match will be refunded.

2014.2 The Office may offer the following tennis Wager types:

- (a) Money Line—A “Money Line” or straight up wager is a bet on the outright winner of the game or event without any point spread odds.
- (1) In a “Match Winner” Wager, the Player predicts the final result of a tennis match by correctly selecting tennis player (or team) A to win or tennis player (or team) B to win.
 - (2) In a “Set Winner” Wager, the Player predicts the final result of a specific set of a tennis match (1st set 2nd set, 3rd set, etc.) by correctly selecting tennis player (or team) A to win or tennis player (or team) B to win.
 - (3) In a “To Win a Set” Wager, the Player predicts whether a tennis player (player A or player B) will win at least one set in a match.
 - (4) In a “1st/2nd Service Game” Wager, the Player predicts which tennis player will serve in the first or the second game in combination with the winner of this game (*e.g.*, in the 1st Game tennis player A to Serve and tennis player B to Win the game).
 - (5) In a “1st Next Game” Wager, the Player predicts which tennis player (player A or player B) will win the first (1st) game or every subsequent (Next) game in a tennis match. This Wager can be offered for a specified set (1st set, 2nd set, 3rd set, etc.), or for a specified period of the match, in which case the prediction involves only the games in that segment of the match.
- (b) Point Spread/Handicap—A “Point Spread” Wager is when a plus or minus Handicap (line) is assigned to either team and then it is added or subtracted to each final score to determine the winner. The Point Spread represents the margin of points in which the favored team must win by to “cover the spread.”
- (1) In a “Winner Most Games with a Spread” Wager, the Player predicts which tennis player (player A or player B) will win the most games in a match, taking into account a spread in games given to one of the two (2) players/athletes. The spread can be a

whole number or not. This spread is taken into account when determining a winning prediction. If the spread is not a whole number, then a tie cannot be a resulting outcome. This Wager can be offered per specified set (1st, 2nd, 3rd, etc.), in which case the prediction involves only the games that will be played in that segment of the match.

- (2) In a “Set Spread” Wager, the Player predicts which tennis player (player A or player B) will win the most sets in a match taking into account a spread in sets given to one of the two (2) Players. The spread can be a whole number or not. This spread is taken into account when determining a winning prediction. If the spread is not a whole number, then a tie cannot be a resulting outcome.
- (c) Total Over/Under Games—In a “Total Over/Under Games” Wager, the Player predicts if the total number of games that will be played in a match is greater or less than a specific range as publicized by the Office. This Wager can be offered for a specified set (1st set, 2nd set, 3rd set, etc.), in which case the prediction involves only the games that will be played in that segment of the match.
- (1) In a “Total Over/Under Per Player” wager, the Player predicts if the total number of games that a tennis player will win in a match is greater or less than a specific range as publicized by the Office. This Wager can be offered for a specified set (1st set, 2nd set, 3rd set, etc.), in which case the prediction involves only the games that the tennis player wins in that segment of the match.
 - (2) In a “Total Games” Wager, the Player predicts the total number of games that will be played where the selection made will be within a specific range of games as publicized by the Office. This Wager can be offered for a specified set (1st set, 2nd set, 3rd set, etc.), in which case the prediction involves only the games that will be played in that segment of the match.
 - (3) In a “Total Tie Breaks” Wager, the Player predicts the total number of tie breaks that will be played in a match, either predicting from a specified range or in the form of a “Yes/No” proposition. This Wager can be offered for a specified set (1st set, 2nd set, 3rd set, etc.), in which case the prediction involves only the games that will be played in that segment of the match. In the event where a match or a set is suspended with a score of 6-6 (when the set will be decided by a tie breaker), for Wager settlement purposes a tie break is assumed to have been played. In the event where a match is suspended during the last set where based on tournament rules, a tie breaker is not played (*e.g.*, the last

set of a men's single finals), for Wager settlement purposes a tie break is assumed not to have been played.

- (d) Odd/Even—In an “Odd/Even” Wager, the Player predicts whether the total number of games that will be played is an odd or even number. This Wager can be offered for each tennis player (player A or player B) separately, or for a specified set (1st set, 2nd set, 3rd set, etc.), or any combination of player and set in which case the prediction involves only the games that will be played in that segment of the match.
- (e) Proposition “Prop” Wagers—Proposition Wagers are wagers on a specific outcome during an event that does not relate to the final score. They may be offered as “Team Props,” “Player Props” and “Special Props.”
 - (1) In a “Correct Score” Wager, the Player predicts the correct score in sets of a tennis match.

DEPARTMENT OF BEHAVIORAL HEALTH**NOTICE OF EMERGENCY AND PROPOSED RULEMAKING**

The Director of the Department of Behavioral Health (“the Department”), pursuant to the authority set forth in Sections 5113, 5115, 5117 and 5118 of the Department of Behavioral Health Establishment Act of 2013, effective December 24, 2013 (D.C. Law 20-61; D.C. Official Code §§ 7-1141.02, 7-1141.04, 7-1141.06 and 7-1141.07 (2018 Repl.)), hereby gives notice of the adoption, on an emergency basis, of new per diem rates for Mental Health Community Residence Facilities under Chapter 57 (Mental Health Community Residence Facility Per Diem), of Subtitle A (Mental Health), Title 22 (Health) of the District of Columbia Municipal Regulations (“DCMR”).

Appropriate, stable, and affordable housing is key to recovery, and significant evidence shows that permanent, supportive housing increases housing tenure and decreases emergency room visits and hospitalization. Consumers consistently cite housing as a top priority. Community residential facilities are a critical housing option for individuals leaving Saint Elizabeths Hospital for community-based treatment, and for the most vulnerable consumers who are experiencing homelessness, cycle in and out of treatment, or live with family or friends without adequate supports which threatens their sustained recovery.

The Department of Behavioral Health licenses Mental Health Community Residence Facilities pursuant to Title 22-A DCMR Chapter 38 (Mental Health Community Residence Facilities). Mental Health Community Residence Facilities (“MHCRFs”) are defined as “publicly or privately owned community residence facility . . . that houses individuals eighteen (18) or older: (a) With a primary diagnosis of mental illness; and (b) who require twenty-four hour (24 hr.) on site supervision, personal assistance, lodging and meals.” Title 22-A DCMR Chapter 38 enables the Department to license four (4) levels of MHCRFs: (1) Supported Residence MHCRFs (formerly known as Independent CRFs), which provide the necessary level of care and staffing to over six hundred fifty (650) individuals with serious mental illness who, as a result of their mental illness, require the support of twenty-four hour a day supported housing; (2) Transitional Supported Residence which is a Supported Residence intended for individuals who are assessed as likely to live independently after a short stay; (3) Supported Rehabilitative Residence MHCRFs (formerly known as contracted CRFs), which provide clinical support services in addition to the twenty-four hour care and staffing; and (4) Intensive Residence MHCRFs, which have the capacity to provide some nursing services in addition to the other required services to assist those with medical needs as well as mental illness. The Department determines the level of care that each individual needs and authorizes admission to the appropriate level of MHCRF. These MHCRFs play a critical role in caring for residents with serious mental illness and helping them live in the least restrictive community environment. The availability of this resource is also important in providing community living arrangements for those individuals leaving nursing homes and psychiatric hospitalizations.

The Department recently completed a rate review to determine the appropriate per diem reimbursement rates for each level of MHCRFs. These per diem rates were set to ensure the MHCRF providers could provide the necessary support in accordance with the level of care

determination issued by the Department, and also ensured that Department resources were appropriately utilized in order to ensure that these MHCRFs can continue to provide the necessary care without any disruption in services due to the change in rates and renewal of contracts. Without this rate increase, the Department will likely lose MHCRF providers, further exacerbating the challenge of providing a supportive environment for individuals with mental health disorders to transition from high acuity care settings into the community. The Department has determined that an emergency rulemaking is necessary to provide immediate financial support to its MHCRF network to preserve the health, welfare, and safety of those residents with serious mental illness.

The emergency rule increases the locally-funded per diem to be paid to all MHCRFs licensed by the Department in accordance with their level of licensure (Transitional Supported Residence (TSR), Supported Residence (SR), Supported Rehabilitative Residence (SRR), and Intensive Residence (IR)). To be eligible for the per diem, an MHCRF shall be required to enter into a contract with the Department. The per diem will be paid per resident and billed to the Department. The per diem is subject to availability of funds.

The Director, Department of Behavioral Health, adopted the emergency rulemaking on October 1, 2019 and it became effective on that date. The emergency rules shall remain in effect for 120 days, pursuant to D.C. Official Code § 2-505(c) (2018 Repl.), expiring January 24, 2020, unless superseded by publication of a Notice of Final Rulemaking in the *D.C. Register*.

The Director also gives notice of the intent to take final rulemaking action to adopt these proposed rules in not less than thirty (30) days after the date of publication of this notice in the *D.C. Register*.

Chapter 57, MENTAL HEALTH COMMUNITY RESIDENCE FACILITY PER DIEM, of Title 22-A DCMR, MENTAL HEALTH, is amended as follows:

Section 5701, REIMBURSEMENT RATE, is deleted in its entirety, and a new Section 5701 is inserted in its place to read as follows:

5701 REIMBURSEMENT RATE

5701.1 The MHCRF Per Diem rates effective October 1, 2019, are as set forth below:

SERVICE	CODE	RATE	UNIT
Transitional Supported Residence MHCRF Per Diem	TSR01	\$68.56	Daily
Supported Residence MHCRF Per Diem	SR01	\$65.37	Daily
Supported Rehabilitative Residence MHCRF Per Diem	SRR01	\$106.15	Daily
Supported Rehabilitative Residence MHCRF Per Diem – Hearing Impaired	SRR02	\$130.09	Daily

Intensive Residence MHCRF Per Diem	IR01	\$163.67	Daily
------------------------------------	------	----------	-------

Comments on these rules should be submitted in writing to Sheila Kelly, Director of Licensure, Department of Behavioral Health, Government of the District of Columbia, 64 New York Ave, N.E., Third Floor, Washington D.C. 20002, via Sheila.kelly@dc.gov or telephone at (202) 673-3516, or via email at DBHpubliccomments@dc.gov, within thirty (30) days of the date of publication of this notice in the *D.C. Register*.

E.L. HAYNES PUBLIC CHARTER SCHOOL**NOTICE OF INTENT TO ENTER A SOLE SOURCE CONTRACT****Instruction Partners**

E.L. Haynes is in its fifteenth year of operation and recently underwent a strategic planning process between April 2019 and November 2019 to review its program effectiveness and to guide the key initiatives the school must implement over the next five years to achieve its goals. The strategic planning process surfaced a specific need for more coherence across academic systems. Specifically, a need to identify a partner to conduct a curriculum audit and support E.L. Haynes to establish a common academic vision that will facilitate alignment of its PK-12 academic program.

Following a detailed market analysis of the available firms with expertise in this area, it was clear that only one provider, Instruction Partners, has the qualifications and experiences to support this specific next step during spring 2020.

The application is tentatively scheduled for a hearing in April, but a notice will be mailed to all the property owners, the Advisory Neighborhood Commission, and the applicant at least 45 days before a hearing.

A copy of the staff report and recommendation will be available at the office five days prior to the hearing. The office also provides information on the D.C. Inventory of Historic Sites, the National Register of Historic Places, and Federal tax provisions affecting historic property.

If the Historic Preservation Review Board designates a property, it will be included in the D.C. Inventory of Historic Sites, and will be protected by the D.C. Historic Landmark and Historic District Protection Act of 1978. The Review Board will simultaneously consider the nomination of the property to the National Register of Historic Places. The National Register is the Federal government's official list of prehistoric and historic properties worthy of preservation. Listing in the National Register provides recognition and assists in preserving our nation's heritage. Listing provides recognition of the historic importance of properties and assures review of Federal undertakings that might affect the character of such properties. If a property is listed in the Register, certain Federal rehabilitation tax credits for rehabilitation and other provisions may apply. Public visitation rights are not required of owners. The results of listing in the National Register are as follows:

Consideration in Planning for Federal, Federally Licensed, and Federally Assisted Projects: Section 106 of the National Historic Preservation Act of 1966 requires that Federal agencies allow the Advisory Council on Historic Preservation an opportunity to comment on all projects affecting historic properties listed in the National Register. For further information, please refer to 36 CFR 800.

Eligibility for Federal Tax Provisions: If a property is listed in the National Register, certain Federal tax provisions may apply. The Tax Reform Act of 1986 (which revised the historic preservation tax incentives authorized by Congress in the Tax Reform Act of 1976, the Revenue Act of 1978, the Tax Treatment Extension Act of 1980, the Economic Recovery Tax Act of 1981, and the Tax Reform Act of 1984) provides, as of January 1, 1987, for a 20% investment tax credit with a full adjustment to basis for rehabilitating historic commercial, industrial, and rental residential buildings. The former 15% and 20% Investment Tax Credits (ITCs) for rehabilitation of older commercial buildings are combined into a single 10% ITC for commercial and industrial buildings built before 1936. The Tax Treatment Extension Act of 1980 provides Federal tax deductions for charitable contributions for conservation purposes of partial interests in historically important land areas or structures. Whether these provisions are advantageous to a property owner is dependent upon the particular circumstances of the property and the owner. Because the tax aspects outlined above are complex, individuals should consult legal counsel or the appropriate local Internal Revenue Service office for assistance in determining the tax consequences of the above provisions. For further information on certification requirements, please refer to 36 CFR 67.

Qualification for Federal Grants for Historic Preservation When Funds Are Available: The National Historic Preservation Act of 1966, as amended, authorizes the Secretary of the Interior to grant matching funds to the States (and the District or Columbia) for, among other things, the preservation and protection of properties listed in the National Register.

Owners of private properties nominated to the National Register have an opportunity to concur with or object to listing in accord with the National Historic Preservation Act and 36 CFR 60. Any owner or partial owner of private property who chooses to object to listing must submit to the State Historic Preservation Officer a notarized statement certifying that the party is the sole or partial owner of the private property, and objects to the listing. Each owner or partial owner of private property has one vote regardless of the portion of the property that the party owns. If a majority of private property owners object, a property will not be listed. However, the State Historic Preservation Officer shall submit the nomination to the Keeper of the National Register

of Historic Places for a determination of eligibility for listing in the National Register. If the property is then determined eligible for listing, although not formally listed, Federal agencies will be required to allow the Advisory Council on Historic Preservation an opportunity to comment before the agency may fund, license, or assist a project which will affect the property. If an owner chooses to object to the listing of the property, the notarized objection must be submitted to the above address by the date of the Review Board meeting.

PUBLIC SERVICE COMMISSION OF THE DISTRICT OF COLUMBIA

NOTICE OF FINAL TARIFF

FORMAL CASE NO. 1130, IN THE MATTER OF THE INVESTIGATION INTO MODERNIZING THE ENERGY DELIVERY SYSTEM FOR INCREASED SUSTAINABILITY,

and

FORMAL CASE NO. 1155, IN THE MATTER OF THE APPLICATION OF THE POTOMAC ELECTRIC POWER COMPANY FOR APPROVAL OF ITS TRANSPORTATION ELECTRIFICATION PROGRAM,

1. The Public Service Commission of the District of Columbia (“Commission”) hereby gives notice, pursuant to Section 34-802 of the District of Columbia Official Code and in accordance with Section 2-505 of the District of Columbia Official Code,¹ of its final action taken on the Potomac Electric Power Company’s (“Pepco”) tariffs revisions to address “make ready” infrastructure and approved Offerings 1, 7, 8, 10, 11² filed in compliance with Order Nos. 19898 and 19983.

2. On April 12, 2019, the Commission, in Order No. 19898 approved in part and denied in part, Pepco’s September 6, 2018, Transportation Electrification Application.³ On August 2, 2019, by Order No. 19983, the Commission clarified timelines tied to the filing of an updated implementation plan, and directed Pepco to include tariffs to address “make-ready” infrastructure as well as any necessary tariffs for Offerings 1, 7, 8, 10, and 11.⁴ On October 31, 2019, Pepco filed its Implementation Plan in response to Order Nos. 19898 and 19983, indicating that the updated estimated cost for implementing the program is approximately \$4.3 million, subject to the costs for make ready work being site specific.⁵

3. Pepco provided proposed tariff updates for the “make-ready” infrastructure (Attachment A), and Offering 1 - Whole House Time of Use Rate (Attachments B and C).⁶ Furthermore, Pepco noted that after reviewing Offerings 7, 8, 10, and 11 and the types of demand and load that will be used, “it recommends using existing rate schedules to provide service until

further considerations with stakeholders indicate a need to otherwise modify existing or create new tariffs.”⁷ On December 6, 2019, Pepco filed an update to its October 31, 2019, Implementation Plan indicating that Rider “NEM” should have been referenced in the proposed Schedule “R-PIV”, because it “works in concert with proposed Schedule “R-PIV” to allow Net Energy Metering customers to participate in the time of use pricing approved by the Commission.”⁸

4. Pepco proposed several changes to its tariffs in response to Order Nos. 19898 and 19983. The first revision focuses on the “make ready” infrastructure, the remaining tariff revisions are related to Offering 1- which includes Schedule “R-PIV,” revisions to Rider “NEM”, and Rider “PIV-Green”. Pepco stated that for Offering 1, Schedule “R-PIV” disaggregates the generation, transmission and distribution rates.⁹

5. To implement the approved portions of its TE Program, Pepco proposed to amend the following tariff pages:

PUBLIC NOTICE

FORMAL CASE NO. 1162, IN THE MATTER OF THE APPLICATION OF WASHINGTON GAS LIGHT COMPANY FOR AUTHORITY TO INCREASE EXISTING RATES AND CHARGES FOR GAS SERVICE,

1. The Public Service Commission of the District of Columbia (Commission) hereby gives notice, pursuant to D.C. Code § 34-901 and 34-909, that on January 13, 2020, Washington Gas Light Company (Washington Gas or Company) filed an Application requesting authority to increase existing rates and charges for natural gas service in the District of Columbia. The requested rates are designed to collect approximately \$200.4 million in total annual revenues, which represents an increase in the Company’s weather-normalized annual revenues of no more than \$35.2 million and would result in an overall increase of approximately 14.7% in revenue collection over and above that collected through current bills. This revenue increase includes \$9.1 million associated with natural gas system upgrades previously approved by the Commission and currently paid by customers through monthly surcharges.

2. The proposed changes in base rates for firm and interruptible customers’ Customer Charge and Distribution Charges are summarized below.

3. The first element of a firm or interruptible customer’s bill is the Customer Charge, and the proposed changes are as follows:

7. In its Application, the Company is proposing a Revenue Normalization Adjustment (RNA) in its proposed rate structure that will benefit customers and the Company. The proposed RNA would reduce fluctuations in customers' bills resulting from extreme weather patterns. Washington Gas operates with similar normalization adjustments in its Maryland and Virginia service territories.

(Square 136, Lot 34).

SUMMARY ORDER ON REQUEST FOR MODIFICATION OF SIGNIFICANCE

Original Application. In Application No. 18744, the Board of Zoning Adjustment (“Board” or “BZA”) approved the request by SB-Urban LLC for relief under the Zoning Regulations of 1958 including: a variance from the court width requirements, a variance from the requirement to maintain existing parking, a special exception from the requirement to provide additional parking for an addition to an historic resource, and a special exception from the roof structure setback and uniform enclosing wall height requirements, to construct an addition to a historic structure to establish an apartment building in the DC/SP-1 District. The Board issued Order No. 18744 on May 20, 2014. (Exhibit 7.) The approval was subject to two conditions, including implementation of a Transportation Demand Management (“TDM”) plan.

Proposed Modification. On October 18, 2019, the current owner of the property, Patterson SPE LLC, (the “Applicant”) submitted a request for modification of significance to Order No. 18744. (Exhibits 1-16.) The Applicant proposes to convert 31 of its 92 residential units to a lodging use. (Exhibit 2.) The Applicant would nonetheless continue to set aside seven residential units as Inclusionary Zoning units. Based on the proposed modification, the Applicant requests a special exception under the use permissions of Subtitle U § 504.1(f) to permit the lodging use. The zoning relief requested in this case was self-certified, pursuant to 11 DCMR Subtitle Y § 300.6. (Exhibit 19.)

Notice of the Request for Modification. Pursuant to Subtitle Y § 704.5, the Applicant served the request for modification of significance on the parties to the original application. (Exhibit 1.) The Board referred the application to the appropriate agencies and provided proper and timely notice of the public hearing in accordance with Subtitle Y § 402.1.

Parties. The parties to this case were the Applicant and Advisory Neighborhood Commission ("ANC") 2B.

ANC Report. The ANC's report indicated that at a regularly scheduled, properly noticed public meeting on January 8, 2020, at which a quorum was present, the ANC voted to support the request, provided that the Applicant contributes \$65,000 to the Housing Production Trust Fund based on a schedule agreed to by the Applicant.¹ (Exhibit 42.)

OP Report. Office of Planning submitted a report recommending approval of the proposed modification of significance and the requested special exception. (Exhibit 40.)

DDOT Report. The District Department of Transportation submitted a report indicating that it had no objection to the proposed modification of significance and proposing amendments to the previously-approved TDM plan based on the introduction of the lodging use. (Exhibit 39.) The Board adopted those additional TDM measures as conditions of this Order.

Request for Modification of Significance

Pursuant to Subtitle Y § 704.1, any request for a modification that does not meet the criteria for a minor modification or modification of consequence² requires a public hearing and is a modification of significance. The Applicant's request complies with 11 DCMR Subtitle Y § 704, which provides the Board's procedures for considering requests for modifications of significance.

Based upon the record, the Board concludes that in seeking a modification of significance, the Applicant has met its burden of proof under Subtitle Y § 704.

Special Exception Relief

The Applicant seeks relief under Subtitle X § 901.2, for a special exception under the use permissions of Subtitle U § 504.1(f) to permit the conversion of 31 units to a lodging use.

Based upon the record before the Board, and having given great weight to the appropriate reports and recommendations filed in this case, the Board concludes that the Applicant has met the burden of proof that the requested relief can be granted as being in harmony with the general purpose and intent of the Zoning Regulations and Map and that granting the requested relief will not tend to affect adversely the use of neighboring property in accordance with the Zoning Regulations and Map. The Board further concludes that, pursuant to Subtitle X § 901.2(c), any other specified conditions for special exception relief have been met.

¹ The Applicant agreed to make the first \$32,500 payment within 60 days after the issuance of the written BZA Order and expiration of the appeals period (or satisfaction of any appeals), and the second \$32,500 payment prior to the issuance of a certificate of occupancy for the lodging use.

² See, Subtitle Y §§ 703.3 and 703.4.

“Great Weight” to the Recommendations of OP

The Board is required to give “great weight” to the recommendation of OP pursuant to § 5 of the Office of Zoning Independence Act of 1990, effective September 20, 1990 (D.C. Law 8-163; D.C. Official Code § 6-623.04 (2018 Repl.) and Subtitle Y § 405.8). The Board finds OP’s recommendation that the Board approve the application persuasive and concurs in that judgment.

“Great Weight” to the Written Report of the ANC

The Board must give “great weight” to the issues and concerns raised in the written report of the affected ANC pursuant to § 13(d) of the Advisory Neighborhood Commissions Act of 1975, effective March 26, 1976 (D.C. Law 1-21; D.C. Official Code § 1-309.10(d) (2012 Repl.) and Subtitle Y § 406.2) The Board finds the ANC’s recommendation that the Board approve the application persuasive and concurs in that judgment. The Board did not adopt the requirement that the Applicant contribute \$65,000 to the Housing Production Trust Fund as a condition of this Order, as it did not find the condition necessary to mitigate an adverse impact of the proposal; however, the Board recognizes that the Applicant has agreed to the contribution and expects that the Applicant will abide by its agreement to the ANC.

Pursuant to Subtitle Y § 604.3, the order of the Board may be in summary form and need not be accompanied by findings of fact and conclusions of law where granting an application when there was no party in opposition.

It is therefore **ORDERED** that this application for modification of consequence of BZA Order No. 18744 is hereby **GRANTED**, subject to the approved plans at Exhibits 24A1-24A4 of Application No. 18744, as modified by Exhibits 11A1-11A5 of Application No. 18744-A, and the following **CONDITIONS**, which shall replace and supersede the conditions of BZA Order No. 18744:

1. The Applicant shall have flexibility to modify the design of the building to address any comments from the D.C. Historic Preservation Review Board (HPRB), or HPRB staff, during final review of the project so long as such modifications do not require any additional areas of relief or substantial impact on the Approved Plans submitted to the BZA.
2. The Applicant shall implement the following Transportation Demand Management measures which shall:
 - a. Designate a member of the property management team as a Transportation Management Coordinator (TMC). The TMC shall provide information to residents identifying the available alternative modes of transportation and other supportive programs.
 - b. Direct new residents to the property’s website, which will include information on transportation options.

- c. Provide a transportation information screen in a common, shared space in the building that will show real time availability information for nearby trains, buses, and other transportation alternatives.
 - d. Restrict tenants from eligibility for Residential Parking Permit (RPP) for the blocks surrounding the property. The Applicant shall record this restriction in a covenant that runs with the land with the Recorder of Deeds.
 - e. Provide at least 31 secured, covered bicycle parking spaces within the building and at least four bicycle parking spaces in public space near the building's entrance, the latter subject to approval by public space officials.
 - f. Provide a bicycle repair facility within the building.
 - g. Provide a minimum of 10 bicycle helmets for use by the residents of the building.
 - h. Offer Capital Bikeshare to all new tenants who do not otherwise own a bicycle for the initial term of each lease in perpetuity.
 - i. Offer membership in a car-share program to all new tenants for the initial term of their lease in perpetuity.
 - j. Designate a loading management coordinator to coordinate all loading activities of the building and require all tenants to notify the loading management coordinator before moving in or out. Tenants requiring a moving truck shall provide the loading management coordinator the following information: time and date that the truck is anticipated to arrive, size of truck being used, and name of moving service, if applicable; and in the event that a moving truck is required, the loading management coordinator or tenant shall apply for DDOT Emergency No Parking signs to establish a temporary loading area. "Emergency No Parking" permits for loading are only eligible to be located in legal parking spaces, which are currently not located immediately adjacent to the subject site.
3. The Applicant shall implement the following TDM strategies for the lodging use:
 - a. The Applicant shall provide Transportation Coordinators' contact information to goDCgo, conduct an annual commuter survey of employees on-site, and report TDM activities and data collection efforts to goDCgo once per year.
 - b. Transportation Coordinators shall develop, distribute, and market various transportation alternatives and options to employees and [customers, patrons, attendees], including promoting transportation events (i.e. Bike to Work Day, National Walking Day, Car Free Day) on property website and in any internal building newsletters or communications.

- c. Transportation Coordinators shall receive TDM training from goDCgo to learn about the TDM conditions for this project and available options for implementing the TDM Plan.
- d. Front office and customer-facing staff shall be provided training by goDCgo (either in-person or webinar) to learn of the non-automotive options for implementing the TDM Plan.
- e. The Applicant shall provide guests with goDCgo’s Get Around Guide by making it available on the property website and in printed format for front office or customer-facing staff.
- f. The Transportation Coordinator shall subscribe to goDCgo’s hospitality newsletter.
- g. The Hotel shall participate in the Capital Bikeshare Corporate Membership program and offer discounted annual memberships to employees.
- h. The Applicant shall post “getting here” information in a visible and prominent location on the website with a focus on non-automotive travel modes. Also, links shall be provided to goDCgo.com, CommuterConnections.com, transit agencies around the metropolitan area, and instructions for patrons;
- i. The Applicant shall provide brochures with information on non-automotive options for traveling to the property available at all times in a visible location in the lobby.

In all other respects, Order No. 18744 remains unchanged.

MODIFICATON DECISION DATE:	January 15, 2020

SUMMARY ORDER ON REQUEST FOR MODIFICATION OF SIGNIFICANCE

Original Application. In Application No. 19819, the Board of Zoning Adjustment (“Board” or “BZA”) approved the request by Southern Hills LP (the “Applicant”) for special exceptions under the theoretical subdivision provisions of Subtitle C § 305, under the new residential development requirements of Subtitle U § 421, and the use provisions of Subtitle U § 320.1(b), and pursuant to Subtitle X, Chapter 10, for a variance from the height requirements of Subtitle F § 303.1, to demolish the existing apartment houses and construct five new apartment houses, 42 attached principal dwelling units, and a new community service center in the RA-1 Zone. The Board issued Order No. 19819 on September 24, 2018. (Exhibit 3A.)

Proposed Modification. On September 26, 2019, the Applicant submitted a request for modification of significance to Order No. 19819. (Exhibits 1-7.) The Applicant proposes to increase the number of residential units provided by 94, for a total of 349 units, based on feedback from the D.C. Department of Housing and Community Development. In order to accommodate the increase in units, the Applicant now proposes to revise the site plan and to construct six apartment houses, in addition to the approved community service center. Of the 349 residential units, 255 will be deeply affordable units and 94 will be mixed-income units, including some reserved for individuals earning 50% to 80% of Area Median Income and some market rate. The Applicant submitted revised plans reflecting these modifications. (Exhibit 3B1-3C3 (Original); Exhibits 28A1-28B3 (Updated).) The Applicant also submitted an updated tenant relocation and construction phasing plan, which aims to provide more units in earlier phases in order to minimize offsite relocation of existing tenants. (Exhibit 28C.)

Based on the proposed modifications to the approved plans, the Applicant does not request any new areas of zoning relief, but instead, requests a modification of the areas of relief originally granted. Specifically, the Applicant requests area variance relief from the height and number of stories requirements of Subtitle F § 303.1, with regard to buildings F and H. The Applicant argues that it continues to meet the special exception standards with regard to the theoretical subdivision provisions of Subtitle C § 305, the new residential development requirements of Subtitle U § 421, and the Community Service Center use provisions of Subtitle U § 320.1(b). The zoning relief requested in this case was self-certified, pursuant to 11 DCMR Subtitle Y § 300.6. (Exhibit 8.)

Notice of the Request for Modification. Pursuant to Subtitle Y § 704.5, the Applicant served the request for modification of significance on the parties to the original application. (Exhibit 7.) The Board referred the application to the appropriate agencies and provided proper and timely notice of the public hearing in accordance with Subtitle Y § 402.1.

Parties. The parties to this case were the Applicant and Advisory Neighborhood Commission ("ANC") 8D.

ANC Report. The ANC's report indicated that at a regularly scheduled, properly noticed public meeting on November 21, 2019, at which a quorum was present, the ANC voted to support the request. (Exhibit 26.)

OP Report. Office of Planning submitted a report recommending approval of the proposed modification of significance. (Exhibit 31.)

DDOT Report. The District Department of Transportation submitted a report indicating that it had no objection to the proposed modification of significance, subject to the implementation of a Transportation Demand Management ("TDM") plan. (Exhibit 29.) The Board adopted the TDM measures as conditions of this approval.

Persons in Support. The Board heard testimony in support of the modification from Barbara Summers of the Southern Hills Condominium Association.

Request for Modification of Significance

Pursuant to Subtitle Y § 704.1, any request for a modification that does not meet the criteria for a minor modification or modification of consequence¹ requires a public hearing and is a modification of significance. The Applicant's request complies with 11 DCMR Subtitle Y § 704, which provides the Board's procedures for considering requests for modifications of significance.

¹ See, Subtitle Y §§ 703.3 and 703.4.

Based upon the record, the Board concludes that in seeking a modification of significance, the Applicant has met its burden of proof under Subtitle Y § 704.

Variance Relief

The Applicant seeks relief under Subtitle X § 1002.1 for area variance from the maximum height and number of stories requirements of Subtitle F § 303.1.

Based upon the record, the Board concludes that the Applicant has met the burden of proof under 11 DCMR Subtitle X § 1002.1, that there exists an exceptional or extraordinary situation or condition related to the property that creates a practical difficulty, in the case of an area variance, or an undue hardship, in the case of a use variance, in complying with the Zoning Regulations, and that the relief can be granted without substantial detriment to the public good and without substantially impairing the intent, purpose, and integrity of the zone plan as embodied in the Zoning Regulations and Map.

Special Exception Relief

The Applicant seeks relief under Subtitle X § 901.2, for special exceptions under the theoretical subdivision provisions of Subtitle C § 305, under the new residential development requirements of Subtitle U § 421, and the use provisions of Subtitle U § 320.1(b).

Based upon the record, the Board concludes that the Applicant has met the burden of proof that the requested relief can be granted as being in harmony with the general purpose and intent of the Zoning Regulations and Map and that granting the requested relief will not tend to affect adversely the use of neighboring property in accordance with the Zoning Regulations and Map. The Board further concludes that, pursuant to Subtitle X § 901.2(c), any other specified conditions for special exception relief have been met.

“Great Weight” to the Recommendations of OP

The Board is required to give “great weight” to the recommendation of OP pursuant to § 5 of the Office of Zoning Independence Act of 1990, effective September 20, 1990 (D.C. Law 8-163; D.C. Official Code § 6-623.04 (2018 Repl.) and Subtitle Y § 405.8). The Board finds OP’s recommendation that the Board approve the modification persuasive and concurs in that judgment.

“Great Weight” to the Written Report of the ANC

The Board must give “great weight” to the issues and concerns raised in the written report of the affected ANC pursuant to § 13(d) of the Advisory Neighborhood Commissions Act of 1975, effective March 26, 1976 (D.C. Law 1-21; D.C. Official Code § 1-309.10(d) (2012 Repl.) and Subtitle Y § 406.2) The Board finds the ANC’s recommendation that the Board approve the modification persuasive and concurs in that judgment.

Pursuant to Subtitle Y § 604.3, the order of the Board may be in summary form and need not be accompanied by findings of fact and conclusions of law where granting an application when there was no party in opposition.

It is therefore **ORDERED** that this application for modification of significance of BZA Order No. 19819 is hereby **GRANTED**, subject to the approved plans at Exhibits 11A1-11A5 of Application No. 19819, as modified by Exhibits 28A1-28B3 of Application No. 19819-A, and the following **CONDITION**:

1. The Applicant shall implement the following Transportation Demand Management (“TDM”) Plan for the life of the project, unless otherwise noted:
 - a. The Applicant shall unbundle the cost of residential parking from the cost of lease or purchase of each unit and charge a minimum rate based on the average market rate within a quarter mile of the Site.
 - b. The Applicant shall identify Transportation Coordinators for the planning, construction, and operations phases of development. The Transportation Coordinators shall act as points of contact with DDOT, goDCgo, and Zoning Enforcement.
 - c. The Applicant shall provide the Transportation Coordinators’ contact information to goDCgo, conduct an annual commuter survey of employees on site, and report TDM activities and data collection efforts to goDCgo once per year.
 - d. The Transportation Coordinators shall develop, distribute, and market various transportation alternatives and options to the residents, including promoting transportation events (i.e. Bike to Work Day, National Walking Day, Car Free Day) on the property’s website and in any internal building newsletters or communications.
 - e. Transportation Coordinators shall receive TDM training from goDCgo to learn about the TDM conditions for this project and available options for implementing the TDM plan.
 - f. The Applicant shall provide welcome packets to all new residents that should, at a minimum, include the Metrorail pocket guide, brochures of local bus lines (Circulator and Metrobus), carpool and vanpool information, CaBi coupon or rack card, Guaranteed Ride Home (GRH) brochure, and the most recent DC Bike Map. Brochures can be ordered from DDOT’s goDCgo program by emailing info@godcgo.com.
 - g. The Applicant shall provide residents who wish to carpool with detailed carpooling information and shall refer residents to other carpool matching services sponsored by the Metropolitan Council of Governments (MWCOC) or other comparable service if MWCOC does not offer this in the future.
 - h. The Transportation Coordinator shall subscribe to goDCgo’s residential newsletter.
 - i. The Applicant shall post all TDM commitments on website, publicize availability, and allow the public to see what commitments have been promised.

BZA APPLICATION NO. 19819-A
PAGE NO. 4

- j. The Applicant shall meet Zoning requirements by providing 126 long-term bicycle parking spaces in convenient areas around the project site.
- k. The project's long-term bicycle storage shall accommodate non-traditional sized bikes including cargo, tandem, and kids' bikes.

In all other respects, Order No. 19819 remains unchanged.

The Board further concludes that, pursuant to Subtitle X § 901.2(c), any other specified conditions for special exception relief have been met.

Pursuant to 11 DCMR Subtitle Y § 604.3, the order of the Board may be in summary form and need not be accompanied by findings of fact and conclusions of law where granting an application when there was no party in opposition.

Application No. 20166 of Destination Pet LLC, pursuant to 11 DCMR Subtitle X, Chapter 9, for a special exception under the use requirements of Subtitle U § 513.1(I), to permit a veterinary office and veterinary boarding hospital in the MU-4 Zone at premises 2218-2220 18th Street, N.W. (Square 2553, Lot 78).

HEARING DATE: December 18, 2019
DECISION DATE: January 15, 2020

SUMMARY ORDER

Relief Requested. The zoning relief requested in this case was self-certified, pursuant to 11 DCMR Subtitle Y § 300.6. (Exhibit 4.)

Notice of the Application and Public Hearing. The Board of Zoning Adjustment ("Board" or "BZA") referred the application to the appropriate agencies and provided proper and timely notice of the public hearing in accordance with Subtitle Y § 402.1.

Parties. The parties to this case were the Applicant and Advisory Neighborhood Commission ("ANC") 1C.

ANC Report. The ANC's first report indicated that at a regularly scheduled, properly noticed public meeting on December 4, 2019, at which a quorum was present, the ANC voted 5-1-0 to oppose the application, raising concerns about the potential noise and waste impacts on adjacent neighbors. (Exhibit 42.) The ANC filed a second report, indicating that at a regularly scheduled, properly noticed public meeting on January 8, 2020, at which a quorum was present, the ANC voted 6-0-0 to reverse their prior opposition and support the application based on a memorandum of understanding ("MOU") between the Applicant and adjacent neighbors. (Exhibit 51.) The Board adopted the provisions of the MOU that it found to be relevant and enforceable as conditions of this Order.

OP Report. The Office of Planning ("OP") submitted a report recommending approval of the application. (Exhibit 39.) OP recommended that the Board adopt a condition to ensure that any revisions to the interior layout to accommodate a veterinarian not increase the gross floor area devoted to the boarding of animals to more than 50%. The Board found that the Applicant must comply with this requirement under Subtitle U § 513.1(I)(2), therefore it need not be made a separate condition of this order.

DDOT Report. The District Department of Transportation submitted a report indicating that it had no objection to the application. (Exhibit 40.)

Persons in Opposition. Two residents of 1811 Wyoming Avenue, N.W. submitted a letter in opposition to the application. (Exhibit 30.)

Special Exception Relief

The Applicant seeks relief under Subtitle X § 901.2, for special exception under the use requirements of Subtitle U § 513.1(l), to permit a veterinary office and veterinary boarding hospital in the MU-4 Zone.

Based upon the record before the Board, and having given great weight to the appropriate reports and recommendations filed in this case, the Board concludes that the Applicant has met the burden of proof that the requested relief can be granted as being in harmony with the general purpose and intent of the Zoning Regulations and Map and that granting the requested relief will not tend to affect adversely the use of neighboring property in accordance with the Zoning Regulations and Map. The Board further concludes that, pursuant to Subtitle X § 901.2(c), any other specified conditions for special exception relief have been met.

Pursuant to 11 DCMR Subtitle Y § 604.3, the order of the Board may be in summary form and need not be accompanied by findings of fact and conclusions of law where granting an application when there was no party in opposition.

It is therefore **ORDERED** that this application is hereby **GRANTED AND, PURSUANT TO SUBTITLE Y § 604.10, SUBJECT TO THE APPROVED PLANS¹ AT EXHIBIT 35A AND WITH THE FOLLOWING CONDITIONS:**

1. The Applicant shall implement the architectural plans submitted as Exhibit 35A along with the recommendations reflected in the acoustical engineer's report attached to the Memorandum of Understanding (the "Acoustical Engineer's Report") at Exhibit 45A, as follows:
 - a. Fill abandoned external windows and doors with double wythe brick system.
 - b. Seal all external gaps with mortar or non-hardening caulk.
 - c. For all STC-51 rated partition walls identified in the Plans, install two layers of 5/8" Type X gypsum board on one side of the partition wall and a single layer on the opposite side.

¹ Self-certification: In granting the certified relief, the Board made no finding that the relief is either necessary or sufficient. Instead, the Board expects the Zoning Administrator to undertake a thorough and independent review of the building permit and certificate of occupancy applications filed for this project and to deny any application for which additional or different zoning relief is needed.

- d. For existing external masonry walls identified in the Plans, use two layers of 5/8" Type X gypsum board, space all new wall framing a minimum of 1" from the existing brick with no contact with the brick wall, and fill the resulting cavity with insulation.
 - e. For the existing cement wall at the rear of the ground level adjacent to the proposed food prep/laundry room, install sound insulation using two layers of 5/8" Type X gypsum board, space all new wall framing a minimum of 1" from the existing brick with no contact with the brick wall, and fill the resulting cavity with insulation.
 - f. Install fiberglass batt insulation in ceiling system directly over any floor space that is identified for dog boarding, including the second level.
 - g. Install acoustical ceiling tiles with a minimum attenuation class of 35 or higher.
 - h. For the internal door adjacent to the "small dog play" area identified in the Plans, install a new solid core wood door with insulated view lite and acoustical seals.
 - i. At the time of construction, determine whether the internal existing wall between the restroom area and janitor/vestibule area identified in the Plans requires additional sound attenuation features, as identified in subsections 2(d) herein.
 - j. Should it be determined that the internal existing wall referenced in subsection 2(i) is not a double wythe masonry wall, Destination Pet will add another layer of masonry to the thickness of the wall from the inside and one layer of 5/8" dense drywall with an airspace between it and the existing wall.
 - k. Install a new solid core metal door and acoustical seals at the new rear entry.
2. The Applicant shall continue to use commercially reasonable efforts to cooperate and work with the Neighbors throughout and following the construction process to ensure that improvements and noise attenuation are completed to meet the reasonable requests of the Neighbors. If issues arise, Neighbors may contact Rob Border at rob.border@destpet.com, who will respond to concerns raised by Neighbors within two business days and communicate Destination Pet's plan of action with respect to such reasonable requests. Additionally, no later than October 1, 2020, Destination Pet and Neighbors shall arrange a meeting to discuss the improvements set forth herein.
 3. The Applicant shall remove all old, not-in-use equipment from the roofs of the Property, including but not limited to: old, unused heating and air conditioning equipment,

including ductwork; old unused cable television equipment such as satellite dishes, and any other unused equipment from prior establishments.

4. The Applicant shall instruct Destination Pet's employees and customers not to block or park in the alley between Kalorama Road, N.W./Wyoming Avenue, N.W., nor the parking spots behind 1806 or 1810 Kalorama Road, N.W.
5. The Applicant shall remove from the Property all dog waste at least two times per week or more frequently as needed to ensure nuisance odor and rat attraction is avoided.
6. The Applicant shall store waste in a bear/rat-proof trash enclosure, with waste transferred to outside cans on the day of pickup used by licensed DC haulers as close to pick-up times as reasonable possible.
7. The Applicant shall provide staff members with training on issues relating to the disposal of dog waste.

OP Report. The Office of Planning submitted a report recommending approval of the application. (Exhibit 34.)

DDOT Report. The District Department of Transportation submitted a report indicating that it had no objection to the application. (Exhibit 31.)

Persons in Support. Eight letters were submitted into the record in support of the application. (Exhibits 37-44.)

Persons in Opposition. One letter was submitted in opposition to the application. (Exhibit 45.)

Special Exception Relief

The Applicant seeks relief under Subtitle X § 901.2, for a special exception under Subtitle E § 5201, from the lot occupancy requirements of Subtitle E § 304.1, to permit an existing rear deck addition to an attached principal building in the RF-1 Zone.

Based upon the record before the Board, and having given great weight to the appropriate reports and recommendations filed in this case, the Board concludes that the Applicant has met the burden of proof that the requested relief can be granted as being in harmony with the general purpose and intent of the Zoning Regulations and Map and that granting the requested relief will not tend to affect adversely the use of neighboring property in accordance with the Zoning Regulations and Map. The Board further concludes that, pursuant to Subtitle X § 901.2(c), any other specified conditions for special exception relief have been met.

Pursuant to 11 DCMR Subtitle Y § 604.3, the order of the Board may be in summary form and need not be accompanied by findings of fact and conclusions of law where granting an application when there was no party in opposition.

It is therefore **ORDERED** that this application is hereby **GRANTED AND, PURSUANT TO SUBTITLE Y § 604.10, SUBJECT TO THE APPROVED PLANS¹ AT EXHIBIT 30 – UPDATED ARCHITECTURAL PLANS AND ELEVATIONS.**

VOTE: 4-0-1 (Carlton E. Hart, Frederick L. Hill, Lorna L. John, and Michael G. Turnbull to APPROVE; no other Board members participating).

**ZONING COMMISSION FOR THE DISTRICT OF COLUMBIA
ZONING COMMISSION ORDER NO. 12-14B**

Z.C. Case No. 12-14B

3rd & M LLC, 3rd & K, LLC, and Park Inn Associates, LP

(PUD Two-Year Time Extension @ Square 542, Lots 817, 821, 816, 883, and 2124-2251)

December 9, 2019

Pursuant to notice, at its December 9, 2019 public meeting, the Zoning Commission for the District of Columbia (the “Commission”) considered the application (the “Application”) of 3rd and M, LLC, 3rd and K, LLC, and Park Inn Associates, L.P., (collectively, the “Applicant”) for a two-year time extension of the deadline to file an application for a building permit to construct the second building of the consolidated planned unit development (“PUD”) approved by Z.C. Order No. 12-14/12-14A¹ (the “Original Order”), for Lots 817, 821, 816, 883, and 2124-2251 in Square 542, with a street address of 300 K Street, S.W. (the “Property”). The Commission reviewed the Application pursuant to the Commission’s Rules of Practice and Procedures, which are codified in Subtitle Z of the Zoning Regulations (Title 11 of the District of Columbia Municipal Regulations, Zoning Regulations of 2016, to which all subsequent citations refer unless otherwise specified). For the reasons stated below, the Commission **APPROVES** the Application.

FINDINGS OF FACT

1. Pursuant to the Original Order, the Commission granted the Applicant consolidated approval for the Property (the “Approved PUD”) and a related Zoning Map amendment to construct two new multifamily apartment buildings, one on the northern portion of the Property (the “North Building”) and the other on the southern portion (the “South Building”).
2. The parties to Z.C Case No. 12-14/12-14A other than the Applicant were Advisory Neighborhood Commission (“ANC”) 6D, the “affected” ANC pursuant to Subtitle Z § 101.8, the Carrollsburg A. Condominiums (“CAC”), and the Waterfront Towers Condominium (“WFT”).
3. The Original Order established a two-year period, starting from the issuance of a Certificate of Occupancy for the first building, within which the Applicant had to file an application for a building permit to construct the second building, with construction to begin within four years of the issuance of that Certificate of Occupancy. (Original Order Condition D(3).)
4. A Certificate of Occupancy was issued for the South Building on April 27, 2018. This established the deadline for the filing of an application for a building permit for the North Building as April 27, 2020, with the construction to start by April 27, 2022.

¹ Z.C. Case No. 12-14 applied to the North Building and Z.C. Case No. 12-14A to the South Building. The Commission heard the two cases together with a single shared record and order.

The Application

5. On October 3, 2019, prior to the April 27, 2020 deadline to file an application for a building permit to construct the North Building as established by the Original Order, the Applicant filed the Application requesting a two-year extension.
6. The Applicant provided evidence that by October 4, 2019, it served the Application on ANC 6D, the Office of Planning (“OP”), the CAC board, and WFT’s attorney, as attested by the Certificate of Service submitted with the Application. (Exhibit [“Ex.”] 3.)
7. The Application also requested a waiver of Subtitle Z § 705.6’s prohibition on filing a time extension request more than six months prior to the expiration sought to be extended, since the Application was filed 24 days prior to this six-month period.
8. The Application asserted that good cause justifies the Commission’s granting the waiver to consider the Application early because the Applicant has simultaneously filed a request for a Modification of Consequence, and so the waiver would allow the Commission to maximize efficiency and consider both requests at the same time. (Z.C. Case No. 12-14C.)
9. The Applicant attested that there have been no substantial changes of material facts that would undermine the basis on which the Commission based its original approval. (Ex. 2.)
10. The Application asserted that good cause justifies granting the time extension because of the Applicant’s difficulty obtaining sufficient project financing for the development due to changes in economic and market conditions. (See Ex. 2C.)
11. Nearly 1,400 units have been delivered in the Southwest/Navy Yard submarket in the past year and 3,800 units have been delivered since 2017. Another 4,400 units are under construction or expected to deliver in the next year. (Ex. 2.)
12. The Applicant states that the oversupply of new residential units in the short term and rising costs of construction make the current financing environment not favorable for the second phase of construction. (Ex. 2.)
13. The Applicant and its consultant believe that the Applicant should delay financing until the submarket stabilizes, because it would not be feasible to currently secure suitable financing for the North Building.

Responses to the ApplicationOP

14. OP submitted a report dated November 8, 2019, recommending approval of the Application (the “OP Report”) for a time extension. (Ex. 5.) The OP Report noted that there are no substantial changes of material facts upon which the project was approved.

ANC

15. ANC 6D did not submit a response to the Application.

Other Parties

16. No other party submitted a response to the Application.

CONCLUSIONS OF LAW

1. Subtitle Z § 705.2 authorizes the Commission to extend the time period of an order approving a PUD upon determining that the time extension request demonstrated satisfaction of the requirements of Subtitle Z § 705.2 and compliance with the limitations of Subtitle Z §§ 705.3, 705.5, and 705.6.
2. Subtitle Z § 705.2(a) requires that an Applicant serve the extension request on all parties and that all parties are allowed 30 days to respond.
3. The Commission concludes that the Applicant has satisfied Subtitle Z § 705.2(a) by demonstrating that it had served all parties to the Original Order – ANC 6D, CAC, and WFT – and that all were given 30 days to respond from the October 4, 2019 date of service.
4. Subtitle Z § 705.6 requires that “[a] request for an extension of an approval may not be filed more than six (6) months prior to the expiration of the order.”
5. Subtitle Z § 101.9 authorizes the Commission to waive any of the provisions of Subtitle Z, if, in the judgment of the Commission, the Applicant demonstrates good cause for the waiver and the waiver will not prejudice the rights of any party and is not otherwise prohibited by law.
6. The Commission concludes that good cause exists for the Applicant’s request for a waiver from the provisions of Subtitle Z § 705.6 to consider the time extension more than six months before the expiration of the Original Order, and that no party will be prejudiced by granting of this waiver. The Commission finds it is appropriate to waive this provision to consider the time extension concurrently with the modification of consequence proposed in Z.C. Case No. 12-14C and notes that the Application was filed less than a month early.
7. Subtitle Z § 705.2(b) requires that the Commission find that there is no substantial change in any of the material facts upon which the Commission based its original approval of the PUD that would undermine the Commission’s justification for approving the PUD.
8. The Commission concludes that the Application satisfied Subtitle Z § 705.2(b) based on the Application and the OP Report.
9. Subtitle Z § 705.2(c) requires that an application demonstrate with substantial evidence one or more of the following criteria:

- (1) *An inability to obtain sufficient project financing for the development, following an applicant's diligent good faith efforts to obtain such financing because of changes in economic and market conditions beyond the applicant's reasonable control;*
 - (2) *An inability to secure all required governmental agency approvals for a development by the expiration date of the PUD order because of delays in the governmental agency approval process that are beyond the applicant's reasonable control; or*
 - (3) *The existence of pending litigation or such other condition, circumstance, or factor beyond the applicant's reasonable control that renders the applicant unable to comply with the time limits of the order.*
10. The Commission concludes that the Application met the standard of Subtitle Z § 705.2(c)(1) because the Applicant has diligently pursued the financing of the development of the Property and has not been able to move forward due to market conditions outside of its control, including oversaturation of delivered and pending units in the submarket and rising costs of construction making securing suitable financing to proceed infeasible.

“Great Weight” to the Recommendations of OP

11. The Commission must give “great weight” to the recommendations of OP under § 5 of the Office of Zoning Independence Act of 1990, effective September 20, 1990. (D.C. Law 8-163; D.C. Official Code § 6-623.04 (2001); *see* Subtitle Z § 405.8.)
12. The Commission finds persuasive OP’s recommendation that the Commission approve the Application and therefore concurs in that judgment.

“Great Weight” to the Written Report of the ANC

13. The Commission must give “great weight” to the issues and concerns raised in a written report of the affected ANC that was approved by the full ANC at a properly noticed meeting that was open to the public pursuant to § 13(d) of the Advisory Neighborhood Commissions Act of 1975, effective March 26, 1976 (D.C. Law 1-21; D.C. Official Code § 1-309.10(d) (2012 Repl.); *see* Subtitle Z § 406.2.) To satisfy the great weight requirement, the Commission must articulate with particularity and precision the reasons why an affected ANC does or does not offer persuasive advice under the circumstances. (*Metropole Condo. Ass’n v. D.C. Bd. of Zoning Adjustment*, 141 A.3d 1079, 1087 (D.C. 2016.) The District of Columbia Court of Appeals has interpreted the phrase “issues and concerns” to “encompass only legally relevant issues and concerns.” *Wheeler v. District of Columbia Board of Zoning Adjustment*, 395 A.2d 85, 91 n.10 (1978) (citation omitted).)
14. Since the ANC did not submit a written report in this case, there is nothing to which the Commission can give “great weight.”

DECISION

In consideration of the case record and the Findings of Fact and Conclusions of Law herein, the Commission concludes that the Applicant has satisfied its burden of proof and therefore **APPROVES** the Application's request for a time extension, with a waiver of Subtitle § 705.6, to extend the deadline to file an application for a building permit to construct the North Building in the PUD approved by Z.C. Order No. 12-14/12-14A by two years to April 27, 2022, with construction to begin by April 27, 2024.

VOTE (December 9, 2019): 5-0-0 (Anthony J. Hood, Robert E. Miller, Peter A. Shapiro, Peter G. May, and Michael G. Turnbull to **APPROVE**).

In accordance with the provisions of Subtitle Z § 604.9, this Z.C. Order No. 12-14B shall become final and effective upon publication in the *D.C. Register*; that is, on January 31, 2020.
